COMING SOON... NEW FROM ABUS!

Complete SECURITY SOLUTIONS

HAPPY NEW YEAR!

I've heard quite a few people say that 2021 had a certain 'Groundhog Day' element to it, which Wikipedia describes as "meaning a monotonous, unpleasant, and repetitive situation". That pretty much sums it up.

It was a tale of different experiences for different parts of the country though, with residents of Victoria, New South Wales and parts of New Zealand subjected to extended lockdowns (again), while in many other parts of the country life went on pretty much as normal.

Bring on 2022 I say!

Despite the effect of lockdowns, we've completed a host of new projects in the year gone, and the biggest and most exciting is our new Website. This new platform makes it easier to find what you need, and to order and engage with us online. We're adding more functionality in the months ahead, and the tie-in with everything online continues to grow. New Electronic Security training modules, and more from the TechEd team for automotive are also coming.

I remain positive for the year ahead, and Australia and New Zealand remain well placed (and have suffered far less than just about anywhere else in the world due to the pandemic). There is pent up demand from consumers, and I encourage all customers to take advantage of that. Our team remain eager to share with you our complete security product and knowledge offering.

On a personal note, I can't wait to travel interstate (and over to NZ) to see you all as soon as possible, and I'm confident this will be a reality in the coming weeks and months.

Our entire team look forward to working with you in the year ahead.

- Mark Johnson

2021 WINNER
JARED MIDDLETON

Northwest Locksmiths (WA)

Jared Middleton of Northwest Locksmiths (WA) has emerged from a final round of judging as Australia's Best Young Locksmith 2020.

Jared Middleton has proved himself to be a talented young locksmith with a great future ahead of him.

LSC will host Jared Middleton in Melbourne in late February where he will accept the prize pack, tour KJ Ross and Lockwood manufacturing facilities and network with industry peers.

We congratulate and thank our other three finalists, Peter Monro, Aiden Webb and Kent Fegan for their time and effort during the judging rounds.

Prize:

🏆 **ABYL TROPHY**

🛠 **$2500 WORTH OF TOOLS AND PRODUCTS**

🎁 **$2000 TECHED VOUCHER**

🌐 **$1000 TRAVEL AND ACCOMMODATION**

📱 **APPLE IPAD PRO**

NEW COMPACT AND WIRELESS SMART SECURITY SYSTEM FOR RESIDENTIAL INSTALLATIONS

NEW

Ideal for houses, apartments and it supports LAN, WiFi and 4G

The VIGILATE smart security system features fast Bluetooth pairing technology, ready to arm (Door/ Window Sensor status before arm), smart following and timed tasks. Users can freely control the system, watch live video, or set lamps to come on when someone comes home, using the VIGILATE Control App available for iOS and Android . The VIGILATE system also supports smart devices like IP cameras and smart bulbs.

OTA Updates

OTA firmware updates allow the VIGILATE Smart Alarm System to evolve by adding new features and devices to the system.

Ready to Arm

The Ready to Arm feature will alert you of unsecured Door and Window Sensors when you Arm/ Home Arm the system. The system can be force Armed by using the Remote Controller, Keypad or RFID tag.

RF Supervision

Also known as accessory monitoring, this notifies you in case of any disruption of the accessories RF signal due to environment change. The real-time status of the accessory can also be checked in the VIGILATE Control APP, such as signal, battery, tamper status, etc.

NEWS AND EVENTS

NSW MLAA BRANCH MEETING

VIC MLAA BRANCH MEETING

Thanks to everyone who attended the last MLAA branch meetings for the year in Melbourne, Adelaide & Sydney. Thanks also to MLAA for letting us sponsor these wonderful events. It was fantastic catching up with everyone there. There were definitely plenty of stories to share and laughs to be had. Check out some of the snaps we managed to capture.

TAFE STUDENTS

Final year TAFE students & teachers attended the Brisbane branch for an automotive day. The day was a blend of transponder theory and practical hands on using the TechEd vehicle simulators.
