THE SMARTEST KEY HAND OVER

ACCESS AND SHARE YOUR KEYS THE SMART WAY WITH ABUS'S NEW SMART BLUETOOTH® KEYGARAGE™

The new ABUS Smart Bluetooth® KeyGarage™ is a great way to safely store and share your keys and other valuables. The large internal space means you can easily store house keys, car keys, prox cards and fobs in the one convenient compartment.

The Smart KeyGarage can provide fast and easy access for guests in holiday rentals, trades, workers, cleaners, care services and more. Users can manage & use the KeyGarage™ by downloading the free ABUS HomeTec Pro app for iOS or Android. As an administrator, you can generate a six-digit key code or electronic access ticket via the app to give access to whatever is stored in the KeyGarage™. You can schedule timed and future access.

Additionally, you can monitor the access history of the KeyGarage™ through the app via audit trail. Made in Germany.

PRODUCT SPOTLIGHT

visit lsc.com.au to see complete Salto IQ21 BLUEnet range!

NEW

SALTO IQ21 IQ

SALTO has launched the new IQ21 BLUEnet unit in addition to the existing IQ22 model. This helps to alleviate the global electronic supply shortages and specifically WIFI and RF components for the IQ.

The new IQ21 is a dedicated BLUEnet device, bringing it in line with SALTO's cutting-edge technology and latest product range. The IQ21 unit is compatible with BLUEnet devices only and excludes RFnet devices like CU41 series KS Controllers, XS4 Original series including keypad escutcheons (excluding Original+) and SALTO GEO cylinders.

There is extended lead time and limited availability on the IQ22 model for sites requiring RFnet devices.

NEW

NEW FROM SILCA: FUTURA EDGE PLUS

The Futura Edge Plus features a unique tilting cutting head unit that allows the machine to cut and decode Medeco Biaxial keys, in addition to regular flat inline household and automotive keys.

Built on the familiar and widely used Futura platform, the new machine is unique in being able to decode Medeco Biaxial keys via the laser reader that's used to decode regular household and automotive keys.

The machine comes with a unique clamp to securely hold Medeco Biaxial keys, and is electronically controlled via tablet. Smart connectivity allows you to keep the machine updated via Wifi or ethernet connection.

SD8A5069ZB

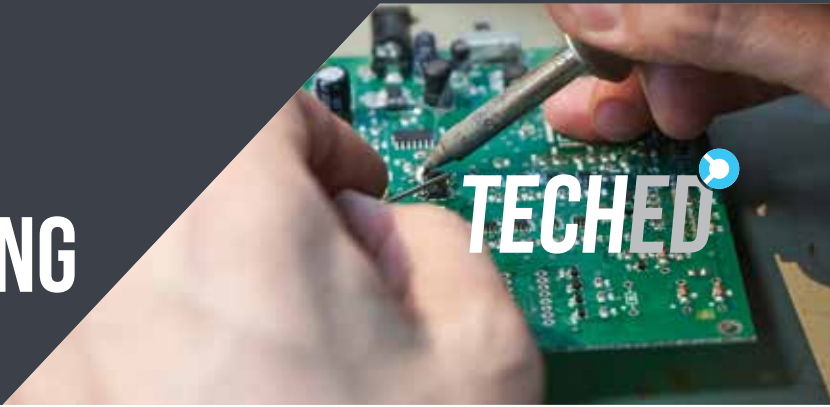

Features:

- Upgrade your Medeco key cutting solution
- Safe, easy, guided process via tablet and integrated software
- Unique jaw allows Medeco keys to be cut and decoded
- Unique tilting cutter head operates in 3 positions
- Cut regular inline key and Medeco on one machine
- Carbide cutter for extremely long life

Jump onto www.lsc.com.au and check out the videos of the machine in action

TECHED FACE TO FACE TRAINING

LSC TechEd are excited to announce the resumption of face to face automotive training.

With access to over 30 vehicle simulators built by our team of recognised industry professionals course attendees get an in-depth understanding of how motor vehicle networks operate. While the majority of the course is hands on there is a smaller theory component.

The primary programming tool utilised is Smart Pro but the learning is applicable to any diagnostic programming tool. Attendees take home a course reference manual which is packed with information for both novice and expert alike.

SMART PRO ACCESSORY PROLONG THE LIFE OF THE CABLE

NEW

The new 90° OBD master cable is an optional accessory for SMART Pro.

The OBD master cable provides for more flexible positioning. The 90° angle allows the cable to fall vertically giving a more comfortable and safe operating position when Smart Pro is held in the hands. This position also helps protect and prolong the life of the cable.

The Ultimate FIRE-RATED Apartment Smart Lock

NEW

Expanding the next-generation in digital locking to
Fire-rated Doors ideal for multi-res & apartment applications

The Yale Unity Entrance Lock Fire Rated has been tested to meet Australian Standard AS1905.1-2015 (certified for use of up to 2 hours on most popular fire door assemblies) and can be controlled through the use of the Yale Access App, providing total control over the lock anywhere, anytime.* Lock and unlock the door, grant access to others and keep track of visitor access all via a mobile device.

YURDELFRBDGSIL Yale Unity Entrance Lock with Connect Bridge Fire Rated

Download the free Yale Access app on iOS and Android.

Disclaimer: Other products' brand names may be trademarks or registered trademarks of their respective owners and are mentioned for reference purposes only. Products are sold separately.

*Remote access requires a Yale Connect Wi-Fi Bridge. Products are sold separately.

Part of ASSA ABLOY

Yale Access App Features

Grant entry from wherever with the Yale Access App

Remote access means that your customers can let in family, friends and trusted visitors like the cleaner or dog walker – from anywhere – when a Yale Smart Lock is paired with the Yale Connect Bridge. If someone forgets to lock when they leave, it can be taken care of with the tap of a finger.

Auto-lock and unlock when coming and going

The auto-lock feature can automatically lock the door upon leaving, either immediately after closing or after a set amount of time via the Yale Access App. When returning, the door will auto-unlock using geo-fencing technology, so there is no need to fumble around with keys.

Know the ins and outs of the home

The 24/7 activity feed will help check who is coming and when – even when nobody is there. Know when guests have arrived, what time children got home, and whether a tradesmen or cleaner was in to get the job done.

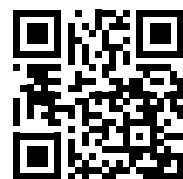

Expecting guests? Send a virtual key

Send virtual keys to friends or family via the Yale Access App. Guests can come and go as they wish – without the worry of lost keys.

Use your voice to control your lock

Yale Access works with Amazon Alexa, Apple HomeKit and Google Home. The lock is voice controllable using Alexa or Google Assistant.

MILESIGHT – BETTER INSIDE, MORE IN SIGHT

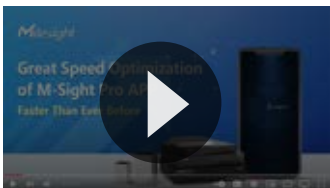

Milesight

Speed up your Video Surveillance on your Mobile Phone and enjoy the smooth experience

Milesight M-Sight Pro App enhances security by providing administrators the flexibility to monitor the live video from Milesight network cameras and NVRs. The simple and intuitive interface is a user-friendly design which gives the user easy access to most functions, including viewing the live videos and playing back the recorded videos.

Always aiming to improve the user experience, the Milesight team has been working on the optimisation of the M-Sight Pro App. Now the App is faster when launching, and faster to load cameras attached to your CCTV system, greatly elevating the user experience. These enhanced improvements are available on the M-Sight Pro App V3.1.0.5-r3 and above and is optimised on Milesight NVR's running firmware 7x.9.0.13-r3 and above.

*Watch the comparison video to experience the speed enhancements on Youtube

NEWS AND EVENTS

CELEBRATING 50 YEARS

THANK YOU TO ALL OUR VALUED CUSTOMERS IN SHARING OUR FIRST 50 YEARS

Lock Focus has been creating solutions since 1972 and a lot has changed since our Melbourne design and manufacturing operations were first established. Originally born out of the UK based Lowe & Fletcher we have developed a modern, world class facility that has enabled us to become a leading hardware manufacturer, supplying the market tailored locking solutions. Employing around 50 people; we remain one of the last lock manufacturing companies in Australia.

In 2016 Lock Focus was acquired by Safecorp Group; an Australian-owned company with a passion for local Australian manufacturing. In recent years we have carefully invested in automating our facility so that we match not only global standards but customer demands. Our facility is open for customer tours throughout the year and we welcome you to come see how we go about our business.

MLAA BRANCH MEETINGS

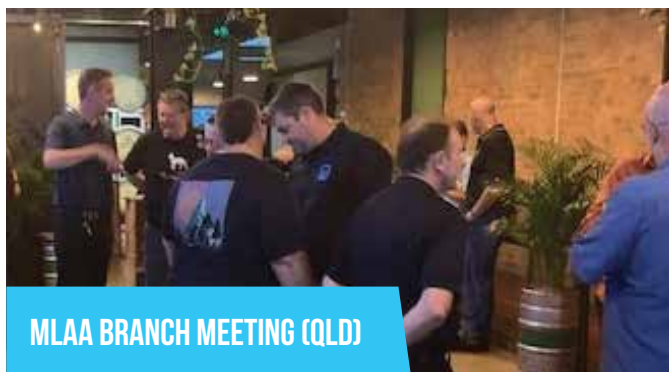

Doesn't it feel great to welcome back face-to-face contact in 2022?

Across March, MLAA Branch Meetings took place in Victoria, Queensland, South Australia, Westerns Australia and NSW.

It was fantastic to spend time with friends and colleagues who many of us have not been able to see over the past two years.

MLAA BRANCH MEETING (VIC)

MLAA BRANCH MEETING (QLD)

HAPPY CUSTOMERS

MCLEAN'S LOCKSMITHS (QLD)

Adam McLean, is all smiles as we took a photo of him with his new SMART Pro.

PLATINUM LOCKSMITHS (NSW)

Phil Favelle & Brad Capra are loving their new Silca Futura Auto. Cutting and decoding automotive keys has never been easier!

JOHN ANDREWS APPRENTICE OF THE YEAR *winner 2020 & 2021*

Please join us in congratulating David Cowley from Precision Locksmiths as the winner of the prestigious 2020 & 21 John Andrew Apprentice of the Year Competition.

As winner, David will receive an incredible all-expenses-paid trip to ABUS' factory in Germany and Silca's factory in Italy. LSC, alongside partner brands Silca and ABUS are proud to sponsor this fantastic award.

Always hotly contested, the award is named in honour of MLAA inaugural Life Member and a winner of the A.L. Chantry Memorial Award for the Pursuit of Excellence, the late John Andrew. Participants compete on skills of picking, impressing, lock fitting, master keying and general knowledge.

Congratulations David!

JOHN ANDREWS APPRENTICE OF THE YEAR

STAND IN FRONT OF YOUR CUSTOMER

NOT IN FRONT OF A KEY MACHINE

Staff shortages batter Australian economy

The Guardian Australia, February 2022

Aussie Businesses under pressure from talent squeeze

National Australia Bank, January 2022

Businesses raise fears of talent squeeze lasting for year

Sydney Morning Herald, January 2022

Employers still want more workers

ABC News, February 2022

With headlines like these, all businesses are feeling the pinch on labour supply around the country. Customers are telling us it's very hard to find qualified locksmiths in regional and metro areas right across the country.

Automation is the solution – key cutting is profitable, yet time consuming – and it can be automated and streamlined with Silca.

- Invest in automation and save valuable labour for tasks that can't be automated
- Speed up your key cutting – UCF800 can cut and engrave up to 70 keys an hour without an operator
- Reliable, automatic, robotic key cutting saves your cost
- Let your staff work onsite, out of the shop where they earn money

Talk to our staff today – LSC and Silca can create time which you can sell for increased profit by redeploying scarce labour to tasks that can't be automated.
