# LSC SHOW BUS ON THE ROAD

LSC Account Manager, Andrew Larkin, recently hit the road to take STU to visit many of our regional Victorian customers from Warrnambool, Colac, Ballarat, Ararat, Bendigo, Echuca, Cobram, Wangaratta, Albury and Wodonga.

It has also ventured into southern NSW to both Griffith and Wagga Wagga.

Onboard STU customers got hands-on with the Silca Unocode F900, Silca Futura Pro, Futura Auto and the Poker Pro, SMART Pro and the RW5. It's already made a great impression with many of our customers commenting that they would love a work van just like STU!

With 3,900 km's travelled so far STU's journey has only just begun. Next month it will make its way to NSW with trips to Tasmania, Darwin and Katherine already planned.

## PROMASTER MASTER-KEYING MAINTENANCE

WH Software actively and continually invests in the latest development tools to provide a secure, high performance, efficient and modern user experience.

*Get more than ever!*

Cyber Security should be on your radar as operating systems continue to evolve, and all users of software products are strongly encouraged to keep your, and your customers' data secure via the deployment of the latest updates, patches, versions, and releases.

In addition to providing access to technical support, the latest version updates, newest software features and enhancements, the WH Software Maintenance program lets you:

- Utilise the Pm8 mobile platform
- Enjoy a complimentary installation of ProMaster Key Manager 8
- Receive early notifications of upcoming training courses
- Receive complimentary places on training courses
- Enjoy reseller pricing when purchasing ProMaster8 Key Manager

# MILESIGHT MAKES ITS TECHED DEBUT

NEW

We're excited to launch two new TechED courses:

- Milesight CCTV Fundamentals (Level 1)
- Milesight CCTV Video Management System (Level 2)

Each half-day course is delivered on the same day for your convenience. Choose one or complete both and truly level-up your Milesight knowledge and skills.

## ESC601 MILESIGHT CCTV FUNDAMENTALS | 4.5 HOURS

This course is recommended to installers who want to install network video recorder systems, connect end user apps and provide their customers with a good understanding of how to use the system.

This course will cover topics such as:

- Milesight's camera and NVR product ranges
- CCTV fundamentals including considerations regarding system set up for various lighting, lenses, sensors, resolution and frame rates
- Basic cabling, IP addressing and networks
- Hard drive and bit rate calculations
- Milesight smart tools
- Phone App connection

## ESC602 MILESIGHT CCTV VIDEO MANAGEMENT SYSTEM | 3.5 HOURS

This course is recommended for installers who want to explore the extensive feature set of the Milesight VMS provides for both Milesight and ONVIF cameras.

This course will cover topics such as:

- Milesight VMS (Video Management System)
- Design a VMS CCTV system
- VMS Hardware Considerations and calculations
- Adding and configuring CCTV cameras with VMS
- Reviewing and Exporting footage
- Create Artificial Intelligence events from camera and VMS

## INTRODUCING SALTO NEOXX G3

# THE ULTIMATE ELECTRONIC PADLOCK SOLUTION

SALTO Systems has introduced the SALTO Neoxx G3 electronic padlock, the most advanced and versatile locking system on the market, which is suitable for a wide range of access control applications. With exceptional attention to detail, this electronic padlock offers unbeatable durability and reliability, ensuring that property and valuables are kept safe and secure at all times.

### HARDWARE

The SALTO Neoxx G3 padlock is made of hardened steel with a removable shackle model option, ensuring maximum durability. It is also IP66 - IP68 rated for water-resistance and IK08 impact-resistant, making it suitable for any kind of climatic environment, even those that are very extreme. The shackle is available in 8mm diameter and length options of 25mm, 30mm, 60mm, and 90mm. The padlock has been extensively tested, with up to 130,000 operations on a standard set of batteries (4 x LR1).

### CONNECTIVITY

The SALTO Neoxx G3 integrates RFID, Bluetooth LE, and NFC technologies to provide the ultimate keyless experience and the most advanced electronic locking system available. In addition, the Neoxx G3 electronic padlock features SALTO SVN data-on-card and BLUEnet wireless network capable core technologies onboard. The padlock can read, receive, and write information via a smart card or real-time communications over the air (OTA). It is compatible with the SALTO Space, SALTO KS and Homelok platforms.

### CREDENTIALS

The SALTO Neoxx G3 is fully compatible with a wide range of credentials, including card, wristband, fob, or phone (Apple and Android). Users on the SALTO KS system can even use Apple Wallet with an iPhone or Apple Watch.

*The SALTO Neoxx G3 is perfect for a wide range of access control applications and is particularly well-suited for those outdoor deployments that need the reporting and advanced technology that electronic access delivers, as well as a product with a tough exterior that can withstand extreme weather variations. You can extend electronic access to places never before thought possible – outside on the perimeter of property, in remote utility fields, and similar places.*

**Marc Handels, SALTO Systems CTIO.**

**The SALTO Neoxx G3 joins its sister product, the SALTO Neoxx G4.**

*The SALTO Neoxx G3 Padlock is available to order, and LSC can help customers with pre-sales support to system implementation.*

## MILESIGHT VISIT TO LSC

We were delighted to host Milesight Oceania Sales Manager, Mike Lu, Senior Technical Specialist, Sky Lin and IoT Sales Manager, Ana Lim at our Distribution & Training Centre in Brooklyn in late April.

The trio enjoyed a tour of our modern distribution centre before giving our Victorian sales team a sneak peek at the Milesight product development roadmap.

We were equally pleased to have Mike and Sky join us for the Brisbane and Sydney LEGS of the SecTech Roadshow to launch the new Milesight Enterprise VMS, which was well received by installers and end-users alike.

*Thank you Milesight for a wonderful visit!  
We look forward to continuing to work together in the future.*

# SECTECH ROADSHOW 2023 REVIEW

## SECTECH ROADSHOW

Throughout May, LSC were privileged to take part in the SecTech Roadshow.

SecTech is one of our favourite events on the calendar, and this year was no different. We showcased a fantastic range of electronic security products from Milesight, RISCO, Dahua, CS Technologies, Creone, SALTO & HID.

Visitors were delighted to see the latest and greatest electronic security innovation on display. We were excited to introduce the Milesight VMS to visitors along with our offerings from CCTV to electronic access, key storage and the revolutionary LightSYS+ hybrid alarm from RISCO.

Beginning in Brisbane, we toured on to Sydney, Melbourne, Adelaide, and finished in Perth. We were delighted to reunite and meet with customers, friends and colleagues from across the electronic security industry.

It's fantastic that LSC has become so integral to electronic security installers across the country. Thanks for joining us at SecTech.

## ABOUT SECTECH

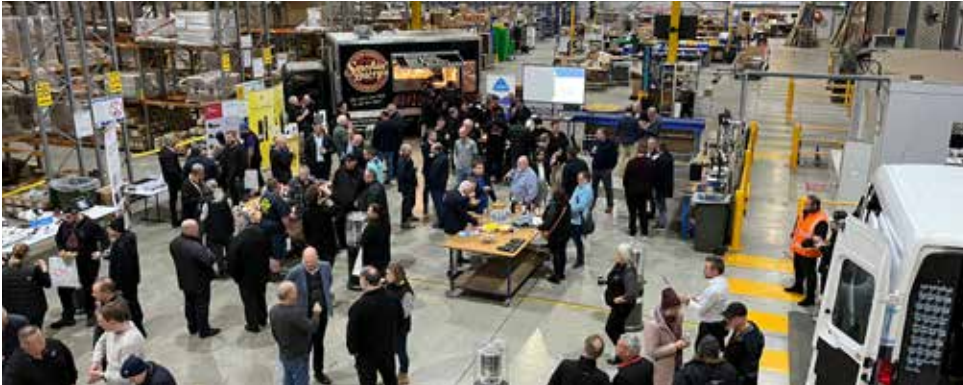

SecTech Roadshow is a touring tradeshow that covers 5 Australian state capitals over 2 weeks every year in May and draws 2,000-2,500 attendees.

The compact size and local venues make SecTech Roadshow the perfect opportunity for installers and end users to get face time with leading suppliers and manufacturers and their solutions in a vibrant half-day event.

## PARTNER BRANDS

# MLAA VIC BRANCH WRAP UP

## MLAA VIC BRANCH MEETING

A huge shoutout & heartfelt thanks to all the incredible MLAA members who joined us at our Distribution & Training Centre for the Victorian MLAA Branch Meeting!

We were proud to introduce our new Security Training Unit, STU to so many people at the event. STU has just got back from touring many parts of regional Victoria. We've also got bold plans for the future, aiming to take STU just about everywhere across regional Australia.

Despite it being a chilly Melbourne winters night, Barry's BBQ Bus provided hot food for the masses. Visitors enjoyed watching our staff provide machine demos and we did our best to warm the space with gas heaters throughout.

It was an absolute pleasure having you here, fostering a strong locksmith community in Melbourne. Your presence and contributions made the event a great success. Thanks as well to the Master Locksmiths Association of Australasia for putting on these events.

# HAPPY CUSTOMERS

**METROPOLITAN LOCKSMITHS (WA)**

Andrew Newlan from Metropolitan Lock Service is over the moon with his purchase of the Advanced Diagnostics SMART Pro, the most reliable diagnostic tool on the market.

**LIGHTHOUSE LOCKSMITHS (WA)**

Here is a happy snap of Aaron Blight and Adam Robertson from Lighthouse Locksmiths with their new Silca Unocode F800.

**CONCEPT LOCKSMITHS (QLD)**

Shaun from Concept Locksmiths was all smiles with his purchase of a new Silca Futura Edge.

**JOHN BARNES & CO MELBOURNE (VIC)**

Eddie from John Barnes was very happy to share his feedback about the new Silca F800 they purchased recently - *"It's a dream honestly, currently running a 60 key order while having a coffee and replying to emails."*

*Customer Testimonial*

**LAST CHANCE**

## TEMPORARY FULL EXPENSING TO END JUNE 30TH

Some customers know it as "instant asset write off", but the technically correct term is "Temporary Full Expensing", and it allows eligible businesses to deduct the full cost of eligible depreciating assets, in the year they are first held or first used and installed for a taxable purpose.

For normal people, what that means is you get good financial support to invest in your business. With the pressure on the labour force, smart businesses are investing in equipment and automation to ease the burden – your LSC Account Manager can advise what's right for you. We're not experts\*, but talk to your accountant who can advise if this opportunity will help your financial position.

\* Advice given is general in nature, and may not be applicable, or may not suit your financial situation. Talk to your Financial Services provider for full details.
