## ABUS Touch™ 57/50 & 57/45

The ABUS Touch™ 57/50 fingerprint padlock now has a smaller brother, the ABUS Touch™ 54/45. Enjoy the same convenience of the ABUS Touch™ with a smaller shackle dia (6.5mm). Just the thing for locking personal items that have a smaller locking diameter - Personal lockers, toolboxes, cabinets or letterboxes.

- CR2 battery included
- Encrypted memory
- Double ball locking for higher security
- Coated Nano Protect™ shackle \* Coated body
- Automatic opening by spring-loaded shackle
- Suitable for indoor or outdoor use (IP66 & IP68)
- Two admins and up to 20 users can be registered
- Efficient energy usage gives up to 10,000 openings

# BORG BL7701 HEAVY DUTY

The heavy-duty Borg BL7701ECP is available in MGPRO finish or satin stainless. The BL7701 features ECP with built-in key override in the lever. The cylinder is a SFIC (small format interchangeable core) cylinder.

The rotation of the key engages the lever handle. The keypad lever clutches and only engages when the correct code of key is entered.

An ideal retrofit upgrade for our own standard BL5000 and competitors Unican 1000 or 5000 models, where frequent code changing is required.

**Features:**

- Fully mechanical digital lock with key override
- With a SFIC cylinder on Silca profile BES1
- New Easi-code on-door code changing procedure
- 8 mm square drive suitable for mortice locks
- 60 mm heavy duty stainless steel tubular latch
- Fully reversible
- Suits doors from 35-80 mm thick
- Up to 1024 codes to choose from
- Available in MGPRO or satin stainless finish

*Marine grade pro*

# LUBRICANT NON-AEROSOL PUMP CANS

Security Tech Germany

NEW

The new ABUS PS22 is a great alternative lubricant (Non-Aerosol) to aerosol cans, good for the environment & safer to transport.

**ABUS Lubricant PS22 Non Aerosol 60mL Pump Can**  
PS2260

**ABUS Lubricant PS22 Non Aerosol 240mL Pump Can**  
PS22240

**Features:**

- Appropriate maintenance is important
- With a precision pump valve delivering a precise amount per spray, there is no need for a propellant
- With regular use, the lubricant can prevent rust and corrosion
- PS22 protects the lock cylinder from dust, dirt and more
- Simply spray it into the lock cylinder and you're done
- Also good for squeaking hinges, padlocks, car locks, tools etc.
- Extension tube locks into lid
- Available in a convenient 60ml and 240ml pump can

*The PS22 (Non-Aerosol) lubricant spray is suitable for all lock cylinders*

# LSC | ELECTRONIC SECURITY

Dahua Technology is a world-leading video-centric smart IoT solution and service provider. Based on technological innovations, Dahua Technology offers end-to-end security solutions, systems, and services to create values for city operations, corporate management, and consumers.

Committed to the mission of “Enabling a safer society and smarter living”, Dahua Technology will adhere to its core value of “customer-centred,” to provide the market with excellent quality and service, to create more value for customers, and make unremitting efforts to build a safe, intelligent, convenient and efficient society.

## HID

HID powers the trusted identities of the world’s people, places and things. HID make it possible for people to transact safely, work productively, and travel freely.

People use HID products to open doors, access digital networks, personalise badges, verify transactions, find information, track assets and connect with others — ensuring their identities are seamlessly accepted, anywhere, anytime. With HID’s trusted identity solutions, people get effortless and worry-free identity verification experiences — with only a tap, twist, tag, push, swipe, or simply through the proximity of their chosen device.

SALTO Systems revolutionised access control with the introduction of the SALTO Virtual Network SVN data-on-card technology and the advanced battery-operated wireless electronic smart door lock range in 2001.

For nearly 20 years SALTO has been synonymous with innovative solutions, including stand-alone, cloud-based and mobile applications, that set new standards in security, manageability, flexibility and design that bring real-world benefits to virtually any door and building type. Across a broad range of industries and applications, SALTO is widely recognised as a global market leader in smart electronic access control solutions.

# See these leading brands at Security 2023

30 August - 01 September | Visit LSC on stand no. M2

Over the past four decades, RISCO has become a technological leader in the global security solutions market, with millions of satisfied customers worldwide and regional offices around the globe.

Developing cloud-based security, video monitoring and verification, and connected home solutions, RISCO delivers innovative, top quality and reliable security products for every type of security and safety installation for the residential and commercial markets.

Power Shield is the Australian power protection company specialising in developing and providing Uninterruptable Power Supply (UPS) systems and power filtration products specifically for the Australasian market.

Power Shield understands Australia's power problems and has been instrumental in solving them for thousands of businesses since its inception in the year 2000. The company is focused on customer service and the management team seeks constant and never-ending improvement.

The company's overall goal is to provide the cleanest and most reliable quality power and economical protection against electrical disturbances for all valuable equipment.

Neptune Security Products was formed to meet the growing demand for high quality, affordable and easy to install security options for almost any location & application.

Dedicated to providing the latest in security innovations, Neptune is constantly sourcing from a large group of cutting-edge manufacturers around the world, ensuring it offers the most up to date technology, excellent levels of product performance, user convenience, and modern styling.

# MLAA EVENTS

## SAVE THE DATE | MLAA CONFERENCE & TRADE EXHIBITION 27 & 28 OCTOBER 2023

The MLAA National Conference & Trade Expo is back for 2023, and we invite you to join us at the Pullman International in Cairns. This year's conference program includes a full trade expo, and the MLAA will offering a number of breakout sessions covering business essentials, skills training, mental health, marketing, and more.

There are several awards to be presented on the night, including announcing the winner of the prestigious 2023 John Andrew Apprentice of the Year competition, sponsored by LSC, Silca and ABUS. The theme for this year's event is Secure Your Foundation – Invest Now to Build a Stronger Future. This is the locksmith industry's premier event for 2023, and we encourage all locksmiths and security technicians to attend the event.

## VISIT OUR NEW EXPERIENCE CENTRE

Did you know our Brisbane branch has had an upgrade? We've recently completed renovations to the Brisbane showroom which includes a purpose-built experience centre.

The new experience centre showcases the latest products from RISCO Group, Milesight, Dahua Technology, HID and Neptune. We hope it provides a comfortable setting for customers to learn and experiment with new solutions.

Customers are encouraged to use the space as a place to relax between jobs - with free coffee and cold drinks available as part of the new experience centre.

# HAPPY CUSTOMERS

**CONDON ARCHITECTURAL HARDWARE (QLD)**

The team from Condon Architectural Hardware are pictured with their new auto key cutting & programming equipment; a new Silca Futura Pro, SMART Pro, SMART Aerial and Silca SRP.

**EAST GIPPSLAND KEYS & LOCKS (VIC)**

Mick and Trent from East Gippsland Keys & Locks have their photo taken with a new addition to the workshop – a Silca Futura Pro.

**EP LOCKSMITHS (SA)**

Kris from EP Locksmiths can now cut the most up to date automotive keys on their new Silca Triax Pro. With its quick-change jaws and flexibility with Instacode it truly is the go-to machine for Automotive Specialists.

**MILDURA LOCKSMITHS (VIC)**

Craig and Anthony from Mildura Locksmiths are all smiles as they pose with their Silca family of machines including the new Unocode F900, Futura Auto, RW5, Unocode 299 and Viper.

**NORTHSIDE LOCKSMITHS (QLD)**

Emily, the Workshop Manager & Locksmith from Northside Locksmiths was happy to have her photo taken beside the new Silca Unocode F800 machine.

**OOPS SECURITY (SA)**

Wayne from Oops Security has upgraded his space & depth keys to a shiny new Futura Edge! Congrats Wayne.

# THE DUPLICATOR FOR THE NEXT GENERATION

Mechanical duplicating machines have been a mainstay of locksmith shops since the 1860's when Linus Yale invented the modern pin tumbler cylinder and associated keys.

Despite improvements in technology, the concept remained relatively unchanged – until now.

Silca revolutionises the standard duplicator by introducing laser reading and electronic carriage control. No longer a mechanical tracer point needs to run over the original key.

Springs, handles, cogs and levers give way to precise electronic control, stepping motors, lasers and LED lighting.

SD851467ZB

## Features:

- Faster
- More accurate
- Safer and easier to use
- Longer lasting cutter
- Intuitive LED status indicator
- Single button start
- Compact footprint
- Most swarf is captured internally

*Free yourself from the machine! Get it to do the work for you – effortlessly, accurately, safely.*
