New ABUS 57/50 Touch™

WiComm Pro - Installers' Smart Choice

Celebrating 40 Years of the MLAA

# BUILD YOUR BRAND WITH PERSONALISED ABUS PADLOCKS AND CYLINDERS

## PUT YOUR BUSINESS NAME AND/OR LOGO ON ABUS PADLOCKS AND CYLINDERS WITH ABUS

Get your business name and contact details on every gate, fence, or entrance with a personalised ABUS Padlock or Cylinder. Our embossing and etching service is a quick and effective method to remain top-of-mind with your existing customers.

We pride ourselves on the quality and precision of our personalisation services. Our friendly in-house graphic design team are happy to work with you, to ensure the quality and accuracy of your final designed.

Ask your Account Manager for more details about our laser etching and embossing services.

As a third-generation family business, we are proud to partner with ABUS, renowned manufacturers of high-quality security products, and a fourth-generation, family-owned business. We are excited to welcome Christian Jerger and Sebastian Rothe from ABUS as guests on our stand at the upcoming MLAA Conference.

ABUS Oval and Rim Cylinders

# SECURAM SAFELOGIC SAFE LOCKS

# SECURAM

The SecuRam® SafeLogic safe locks are a very reliable and robust safe lock system ideal for most applications.

- 2 Codes: Manager Code and User Code
- 9 Volt Battery powers the system
- 10,000 openings on a 9 Volt battery
- 5 minute Penalty LockOut upon entry of 4 incorrect codes

**SECURAM Safelogic 0601/Basic Safe Lock Swing Bolt Complete**

- Standard footprint and mounting pattern, easy retrofit for any mechanical or electronic safe lock.
- SureLock Battery Compartment for easy Battery replacement, without removing the entrypad from the safe door.

SECEL0601SLSW

**SECURAM Safelogic EL1701/Basic Safe Lock w/Motor Driven Deadbolt and Bolt Status**

- SureLock Battery Compartment for easy Battery replacement, without removing the entrypad from the safe door.
- The DeadBolt with Bolt Status Sensor can be easily retrofitted on most safes.

SECEL1701SFMDD

**SECURAM Safelogic 1801/Basic Safe Lock Spring Bolt**

- Standard footprint and mounting pattern, easy retrofit for any mechanical or electronic safe lock.
- SureLock Battery Compartment for easy Battery replacement, without removing the entrypad from the safe door.

SECEL0801SLSPR

## BORG 7000 SERIES LOCKS UPGRADE

The new heavy-duty Borg BL7701ECP is available in MGPRO finish or satin stainless. The BL7701 features ECP with built-in key override in the lever. The cylinder is a SFIC (small format interchangeable core) cylinder. The rotation of the key engages the lever handle. The keypad lever clutches and only engages when the correct code of key is entered.

*Official launch at the MLAA - Limite Stock!*

**Features:**

- Heavy duty
- Available in MGPRO or satin stainless finish
- Key override using SFIC
- ECP on door code change in seconds
- Passage function
- Non-handed keypad
- 70 mm backset

2022 | 3RD FINALIST

# AIDEN WEBB

MATRIX SECURITY (TAS)

**Please provide a short personal biography about yourself.**

My name is Aiden Webb and I am 29 years old and live in the country town of Ridgley in Tasmania with my partner and our beautiful baby girl. My interests are Football and Hockey. I have been working in the locksmith industry since 2009 when I began vocational training with Total Lock & Alarms whilst completing years 11 & 12 at College. This vocational training gave me the desire to continue in the field of locksmithing and made me realise how important the work I do in this job is to customers both businesses & everyday people.

After completing year 12, Total Lock & Alarms offered me labouring work which eventually turned into an offer to complete an apprenticeship with them which I was honoured to accept. I completed my apprenticeship in 2014 & have been working as a qualified locksmith ever since.

In 2019 I was approached by Matrix Security Integration to lead the setting up of their new branch on the North West Coast. This was an exciting opportunity one that I did not hesitate to accept and have been an integral part of the success of this branch.

**What are some of the skills and abilities necessary for someone to succeed as a locksmith?**

To be successful as a locksmith you need to be an excellent communicator who can tailor your conversation to your audience. They need to be highly adaptable and be able to think critically, solve problems and have the physical and technical skills to make keys, open locks, and assist with customer issues.

Locksmiths require patience and good emotional intelligence because they often deal with stressed and/or frustrated customers.

They need to be self-motivated, punctual, and ready to respond to requests quickly. Locksmiths require the ability to work autonomously and in a variety of settings and environments, for example in a busy street or confined spaces.

**What key issues do you think will affect the locksmith industry in the coming decade and how do you think these should be approached?**

The key issues that will affect the locksmith industry in the coming decade will be;

Ongoing advancements and changes in technology; newer electronic locks for vehicles, residences & commercial buildings, improvements to "Smart Locks", Keyless Entry systems & Card access systems shrinkage in the job market due to locksmiths struggling with new technology putting greater stress on existing locksmiths.

There will be an ongoing need to keep up to date with technology improvements to ensure that locksmiths have the ability to install & educate their customers on how to use the equipment. Block release training will need to be modified to include the new technology & additional training courses created for qualified locksmiths to undertake either on campus &/or online.

**Tell us why you should be Australia's best young locksmith.**

It would be an honour to be named Australia's best young locksmith, a profession that I have been working passionately in for over a decade.

I have excellent interpersonal skills; I am approachable, reliable & trustworthy & have the natural ability to interact with people from all walks of life & always willing to assist.

# PROMASTER 8 TRAINING WRAP UP

NSW PM8 TRAINING

WA PM8 TRAINING

**Locksmiths upskilling and refreshing their ProMaster8 skills with LSC and WH Software.** WH Software’s trainer Jeremy Phillips has been to most LSC branches in the last few months, kicking off a round of “Express” Pm8 training – designed to maximise the learning outcomes into the shortest possible time.

The Express courses are designed for customers who might have used ProMaster 5 or 7, but may not be familiar with the new features and enhancements in Version 8. Courses in Sydney, Melbourne, Adelaide, Perth, Brisbane and Gold Coast were all quickly sold out. Customers whose Maintenance agreement is current were also offered one complimentary place in the Express course.

Stay tuned for details of more WH Software ProMaster training courses in the New Year.

## AUDI BCM2 PROGRAMMING

Following last month’s release of Audi BCM2 key programming software this information provides an overview to immobiliser design and coverage. Programming is dependent on the BCM2 firmware type:

- A4 2008 – 2016    Q5 2008 – 2014    S5 2010 – 2014
- A5 2008 – 2014    S4 2008 – 2016

**Slot system** where the key is inserted into a slot on the console and pressed to start the engine is supported for both spare and all keys lost situations. Aftermarket keys are precoded directly via the vehicle key slot.

**Prox Slot** still has key slot but also has a press to start button and proximity functions. Support is for spare keys only. Aftermarket keys are precoded directly via the vehicle key slot.

**Prox Push Button** In this design there is no slot instead the key is held to the reader point. May have limited support for spare keys only. This is currently being tested. The ADC242 Smart Aerial is required to precode aftermarket keys for this type.

# UPCOMING 2022 TECHED COURSES

**LSC** | TRAINING & SUPPORT

Please register Expressions of Interest at [www.lsc.com.au/courses](http://www.lsc.com.au/courses)

## TECHED

### TRAINING & COURSES

Our TechEd Training Division design and deliver a range of automotive courses to enable technicians to expand their skills and enhance their business.

We offer a range of 1-to-2 day training courses that focus on product specific or broader automotive skills. These courses are delivered throughout the year by our Cert. 4 qualified trainers.

**ADP202 | 23 NOVEMBER**

#### Transponders and Diagnostic Key Programming

This course focuses on European manufacturers. Utilising vehicle simulators and various tools participants will learn about immobiliser configurations, transponder preparation and programming techniques.

**ADP213 | 24 NOVEMBER**

#### Volkswagen Group Key Programming Solutions

This intermediate level course has been designed so that participants gain an understanding to the design and programming of the diverse range of platforms found in the Volkswagen Group.

**ADP222 | 25 NOVEMBER**

#### PSA, FCA & Renault Groups

Through a mix of theory, demonstrations, and practical exercises this course will dispel the myths around European manufacturers and equip technicians with the knowledge to program Euro vehicles successfully.

**AEE101 | ONLINE 24/7**

#### Introductory to EEPROM

Delivered online this course provides for an introduction to in-circuit read write operations to EEPROM packages found in various automotive immobiliser circuits.

**ONLINE 24/7**

#### LISHI Mini Course

Delivered online this short course introduces the user to gain entry techniques. Participants will learn the fundamental skills required to use Lishi 2-in-1 and 3-in-1 pick/decoders.

Shared access is simple to manage, as the ABUS Touch™ 57 supports up to 2 administrators and up to 20 fingerprints.

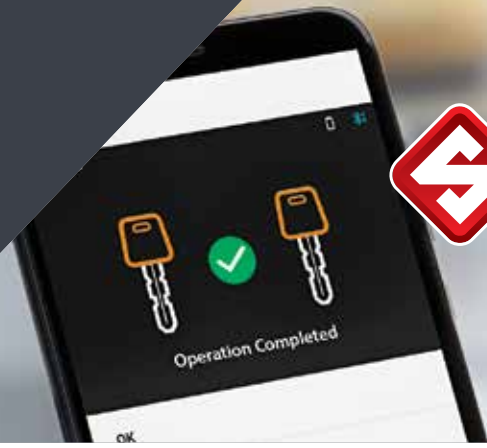

**360°  
RECOGNITION**

**SPECIALLY  
HARDENED  
SHACKLE**

# CLONE JUST ABOUT ANYTHING, JUST ABOUT ANYWHERE!

With cloning remaining the easiest and fastest way to produce additional transponder keys for automotive applications, Silca remain committed to this business and customers who value reliability, ease of use, and a quality outcome for the vehicle owner. Clone on the benchtop in a shop, out on the road in a van, or just about anywhere with the new RW5 and Smart Aerial Plus devices. Cloud connected cloning calculation power makes the process faster, updates fewer and easier, and prolongs the life of the technology as updates are done in the cloud. Easy to use guided processes take you through step by step, and the process is easier and faster than ever, without sacrificing Silca's industry leading reliability.

**Silca RW5**

The ideal solution for shop based operation, join it to your wifi and set and forget.

**ADVANCED DIAGNOSTICS**

**Smart Aerial Plus**

The ideal solution for mobile operations, designed to work with SMART Pro, run it from your phone.

*adds support for additional vehicles, reducing your stock and streamlining your cloning bench.*

**New from Silca: GTI-PRO**

Based on the industry leading GTI and GTI-Wedge chips, Silca are pleased to announce the launch of GTI-PRO.

## BDS PROBLEM SOLVERS - FILLER PLATES

When it is time to permanently remove a lock from a door, how do you hide all those holes?

# SEE DAHUA IN ACTION AT THE MCAA CONFERENCE

## 6MP IR Fixed-focal Eyeball WizSense Network Camera HDW3666EMPS

- 6MP 1/2.7" CMOS image sensor, excellent low luminance performance and high definition of images
- Rotation mode, WDR, 3D NR, HLC, BLC, digital watermarking, applicable to various monitoring scenes
- Outputs max. 6 MP (3072 × 2048) @25/30 fps
- Intelligent detection: Intrusion, tripwire (support the classification and accurate detection of vehicle and human)
- Abnormality detection: Motion detection, privacy masking, scene changing, audio detection, no SD card, SD card full, SD card error, network disconnection, IP conflict, illegal access, and voltage detection

### ALSO AVAILABLE:

DAHUA 6MP Eyeball Camera, Wizsense, 2.8mm Lens HDW3666EMPS | DAHUA 6MP Eyeball Camera, SMD4.0 WizSense, 2.7-13.5mm Lens HDW3666TPZS

## DAHUA IP Villa Outdoor Station & Indoor Monitor Kit, Surface mounted DHIKTP01S

### IP Villa Door Station

- 2MP CMOS camera
- Mechanical button
- Night vision & voice indicator
- 160° angle of view
- Group call
- Aluminium alloy plate
- IP65 & IK07

### IP Indoor Monitor

- IPC surveillance
- Alarm integration
- High performance
- Imbedded 8GB SD card
- Support standard PoE

*Includes switch!*

### 4-Port PoE Switch (Un-managed)

DHPFS30054ET60

- Layer two commercial switch
- Supports PoE power management
- RJ45 port supports 10/100Mbps self-adaptation
- Supports 250 meters long distance PoE transmission

# WICOMM PRO - INSTALLERS' SMART CHOICE

### The Smart Choice for Professional Installers

WiComm Pro is RISCO Group's next generation wireless alarm system, offering a high-end professional, Grade 2 system, in a new sleek, contemporary design and at a highly competitive price. With RISCO's extensive line of wireless accessories and cloud-based products and services, WiComm Pro is the smart choice for professional installers.

### Smart modular design

WiComm Pro benefits from a smart mechanical design which means configuring the panel, adding the communications module and mounting it on the wall has never been easier, meaning you can spend less time on site.

### Discreet and stylish wireless detectors

The wireless PIR Piccolo detector and the Slim Door/Window contact benefit from an innovative and clean design ideal for end users looking for a contemporary look and feel in their premises. The small and compact panel can fit to any location without compromising security.

### Choice of communication modules

WiComm Pro benefits from a complete choice of communication modules, including 4G, IP and Wi-Fi. This wireless professional security solution provides significant improved capabilities, with seamless and robust communication.

### Visual Verification for Peace of Mind

Visual verification enables self-monitoring, giving users a sense of control and peace of mind, while providing a valuable service for monitoring stations by helping them reduce resources associated with false alarms.

**IP Camera** RVCM72P2100A | **Detector** RWX350DC400B

### RISCO Cloud: Installer Admin

The RISCO Installer Admin is a revolutionary cloud service and management platform, transforming an entire installation company into a cutting-edge, highly efficient, most productive business operation, providing the highest quality of service to its customers and driving business growth.

# NEWS AND EVENTS

In Collaboration with ABUS, LSC is proud to be an ongoing sponsor of Lucky Stace Racing.

On the 28th of August, Stace competed in Round 2 of the 2022 Interclub at Broadford State Motorcycle complex. A rusty start resulted in 8th place qualification; she knew she could only improve with more practice on the bike. Sure enough, she stormed home in the Over 500cc Non Preston Club Race, finishing at 4th after a 9th place start.

In The Formula 1A, Stace started at 8th on the grid. She held her own in the first 2 races, finishing 8th and then 9th. Stace prepared for race 3 by tweaking the suspension and setting the air pressure in the rear tyre to maximise grip, finishing 7th overall. Stace remains on the podium in 2nd place overall in the Championship standings, having secured 3rd in the round results!

Days later, Stace raced again in the Pirelli Motul Victorian Road Racing Championship – and despite the big-name Superbike professionals, rose to the occasion! A slightly wet track made qualifying slippery and shredded her tyres. Despite the challenging conditions and exceptional quality of competition, she qualified in 16th place.

Race 1 of the BEARS F1 & F2 involved a slight collision with another rider, thankfully, both were able to stay upright, and Stace went on to finish 16th. After an 11th place Race 2 finish, Race 3 was red-flagged due to another rider colliding with a wallaby! After a short hiatus, the race resumed, with Stace finishing at 13th. Race 4 was a blinder, with each lap being a PB in itself, 8th place. Overall Stace finished 11th, a brilliant result against some unbelievable competition.

In the SBK B & C Grade Stace incurred gearbox issues, and had to deal with a cold, slippery track. Despite this, a strong finish allowed Stace to score a 2 track PB's! Finishing 4th, 9th & 4th.

*Well done Stace, a great month of results!*

# HAPPY CUSTOMERS

## ADVANCED LOCK & KEY (WA)

Here is very happy Aaron and Louis from Advanced Lock & Key with their new Silca F900 key machine. This new machine complements the range of Silca machines that are in the business.

## CAIRNS LOCKSMITHS (QLD)

Our new QLD Account Manager, Cameron Lister, got this great pic of Jack Marino of Cairns Locksmiths with his new Silca Futura Pro.

## SPL (QLD)

Warren, James & Malcolm from SPL's Brisbane office are pictured with their new Silca Futura Pro.

## CAR KEY PROFESSIONAL (WA)

Anthony Betuel from Car key Professional is more than happy to be taking ownership of his NEW SMART Pro!

The MCAA National Conference & Trade Expo is back for 2022, and we invite you to join us on the Gold Coast at the JW Marriott Resort & Spa.

# SILCA UNOCODE F-SERIES: THE FASTEST UNOCODE YET

See Silca at the MLAA show specials!

When Silca designed the Unocode F-Series, a decision was made: the hardware and engineering would represent the best in the world, and no compromise would be accepted.

A common request was to speed up the cutting process. Many customers remembered the Unocode Classic, the machine that defined the category and changed the industry. The Unocode F-Series is even faster than that:

#### UNOCODE TYPE

	F-Series	399EVO	399/299	Classic
<b>5 pin key cutting</b>	9 Seconds	13 Seconds	16 Seconds	10 Seconds
<b>6 pin key cutting</b>	12 Seconds	22 Seconds	25 Seconds	19 Seconds

Including shield movement

When you combine this performance, with the automation available via the F800 and F900 models, the Unocode F-Series can really streamline your business and remove a bottleneck.

Ask your Account Manager about a finance option, or let us show you how to streamline your masterkeying, save time, boost service and free up your team to work on other tasks.

*Get hand's on with the Silca Unocode F Series machine when you visit our stand at the MLAA Conference!*
