Gateway Bypass Cable compatible with Fiat* (FCA) ADC2019 - Code D756296AD

December 2023

The FCA* Gateway Bypass cable works together with the Smart Pro and Advanced Diagnostics Fiat/Chrysler* software to program bladed and proximity keys for models fitted with a Secure Gateway Module (SGM).

What does the Gateway Bypass cable do?

The cable allows locksmiths to programme safely new proximity and bladed keys for various Fiat*, Alfa Romeo* and Jeep* models from 2018 onwards. The cable consists of of two male connectors (8 and 12 pin) and connects the Smart Pro directly to the vehicle's Secure Gateway Module (SGM) wiring harness allowing the SGM to be bypassed.

No further intervention on the vehicle is necessary.

What else is needed?
