NEW FLEXIBLE MANAGEMENT SOLUTION

ABUS 83AL45 SERIES PADLOCKS

Titalium™ is a special alloy which gives incredible strength. This lightweight and durable material offers superior toughness, corrosion-resistant and value compared to many alternatives.

These tough, corrosion resistant padlocks are available in a range of instantly recognisable colours to suit your customers' job requirements.

- Colour anodised aluminium alloy
- 6 pin cylinder assembly
- Hardened alloy steel shackle with Nano-Protect™ plating
- Standard shackle 25 mm
- Large range of replacement shackles
- Standard keyway (LW5)
- Uses standard 570 6 pin barrel
- Compatible with most restricted inline systems

Also available in embossed to suit your corporate colours or your customers.

TECHED

INTRODUCTORY TO EEPROM (AEE101)

We are pleased to now offer our renowned TechEd Training by way of online delivery. Commencing with AEE101 Basic EEPROM, customers can now complete the course at their own pace and in their own time from the workplace or home.

This course is ideal for those wanting a refresher training or those wanting to get involved in basic EEPROM for the first time. This course is also a precursor for those wishing to get involved in Advanced EEPROM which will also be offered online in the near future.

COVID has prompted us to review the traditional face to face format by which we previously delivered training.

Same renowned high level tuition and
quality support materials

Self-paced 24hr / 7 day access from
the comfort of home or workplace

PRODUCT SPOTLIGHT

SALTO XS4 ONE ESCUTCHEON

The SALTO XS4 One escutcheon is a revolutionary stand-alone electronic lock thanks largely to the level of technology packed inside that brings together the convenience of an offline point - easy installation and no wires - with virtually the same kind of power and performance of an online point.

The SALTO XS4 One is the evolution of the original model with a built-in, totally new reader available in two colours. It includes the latest electronic components in order to warranty a future-proof feature compatibility. The XS4 One version is specially designed to fit most Euro profile doors, even narrow profile framed doors.

ADI5004SECSHIELD

ADI 5004 SECURITY SHIELD

- Ideal for remote locations
- Enhanced fixings for center door mounting
- Comes with all fixing bolts
- Rugged 3mm folded steel construction
- Zinc plated for protection against corrosion
- Protects the bolt

60MM DOOR FRAME REINFORCEMENT KIT

Properly securing double leaf aluminium 'shopfront' type doors can be tricky when egress is required. With factory break-ins on the rise, we've got an easy to install solution. The Striker Products door frame reinforcement kit features a special stainless steel bolt and plate set that engages the hook bolt, dramatically reducing the ease in which these doors are pried open, while maintaining the lever-egress function.

- Boosts security and strength on narrow stile aluminium doors prior to break-in
- Stainless Steel, Australian Made, 60mm and 120mm thickness version available

Replaces broken strikes and covers damage on narrow stile aluminium doors!

The Art of Surveillance - Milesight H.265⁺ Network Surveillance

MINI SERIES

The Milesight mini surveillance camera series features ultra-mini size, stylish design and easy installation. The mini security series not only aspire to protect your property with top notch megapixel video quality, but also combine sleek designs to cater for discerning buyers.

PRO SERIES

The Milesight Pro Series cameras are professional-level network cameras designed for those who are seeking the utmost in quality, integration, design and reliability for their demanding surveillance needs.

PTZ SERIES

The Milesight PTZ Security Camera Series provides pan, tilt and zoom functions enabling wide area coverage and all-round monitoring. In combination with high resolution and HEVC compression, the cameras provide zoom-in views in great detail.

MILESIGHT VCA

With Video Content Analysis (VCA) embedded as standard, Milesight cameras support full 10 detection modes, which can alert the operator of detected predefined events automatically to strengthen safety management and to minimise damage through prompt response.

in Sight

ance Solution

LSC is proud to announce we have been appointed a Milesight Technology Distributor in Australia and New Zealand.

Milesight's philosophy since inception has been to manufacture best-in-class video surveillance products that are feature-rich and of the highest quality.

Choosing to focus on design and product quality their range of IP cameras and NVR's target middle to high end security with smart features such as VCA embedded as standard on every camera and convenience such as online firmware upgrades for NVR's.

LPR SERIES

The Milesight LPR/ANPR camera series is embedded with an LPR algorithm. It can automatically detect and capture licence plates in real time and compares against a predefined Black and White list, then takes appropriate action such as generating an alert.

PANORAMIC SERIES

The Milesight Panoramic Series Cameras feature advanced technology, bringing a panoramic viewing experience with high resolution and detailed images that provide an enjoyable user-experience.

NVR SERIES

The Milesight 4K H.265 NVR Series offers a robust system for diverse applications and empowers users to set up and manage advanced IP surveillance systems with ease.

AUCKLAND BREAKFAST

Full carpark.

Following on from the breakfast presentations we held in both Wellington and Christchurch that were featured in the December Newsletter, here are some snaps from the Auckland function.

Our breakfast was again held after an MLAA network meeting the night before and as you can see, the event was very well attended.

The boys who ran the food truck must be commended for putting on a fantastic breakfast. I can assure those of you who didn't manage to attend, that the food was great as we cleaned the food truck out of just about everything.

The coffee van was only just keeping up with demand and it was good coffee too!

We had a couple of issues with the presentations especially an epic-fail when yours truly knocked over a TV screen which was going to be used for the presentation and it was smashed beyond repair. However, in the true spirit of LSC we adapted and overcame the issue as best we could and battled on.

Thank you to all those of you that took the time out to attend the breakfast. I hope that everybody got something good out of it, even if it was only the good food.

Shalvin Chand presenting Salto training.

Full house.

Great turn out from LOCKSMART.

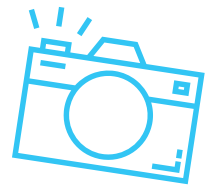

Mobile Food truck in the warehouse.

Tim Joyce presenting Securam.

HAPPY CUSTOMERS

JAMES MOBILE LOCKSMITH

With 17 years' experience in the industry and now 2 mobile vans across the Auckland region, James is well equipped to service lockouts, automotive, residential, commercial and transponder keys

ALLSAFE SECURITY

Here we have a customer of Allsafe Security handing over another successfully completed project to the end user.

ALBA LOCKSMITHS

Back in October LSC NZ ran a Brava Icebox/Firebox Promotion and we are delighted to announce the Winner! Wayne Green owner of the famous Alba Locksmiths, pictured here with Andrew Pierce of LSC

Congratulations Greeny, this will certainly help to keep your IPA'S nice and cold this Summer.

LOCK AND GLASS

Les Harper from Lock and Glass in Whakatane with his new Silca Futura Pro. Straight from the box to the van, Les is making the most of Futura Pro's speed and widest key database available. Well done Les.
