# THE BUILDER

Stuart's Era

Locksmith's Supply Co

*Stuart's values:*

- 1) Go help the customer*
- 2) Product knowledge is all-important*
- 3) Do what you said you were going to*

*Stuart Johnson*

## *A Builder of the Business:*

# *Stuart Johnson*

In 1948, at just 18 years of age, Stuart Johnson joined the family business, then known as A. F. Johnson & Co., a name it had carried since its founding in 1926.

It didn't take long for Stuart to settle into his new role. As the months passed, he knew he had made the right decision. The post-war world was changing rapidly, and so was the business. Global economies were recovering, trade routes were reopening, and demand for imported and exported goods was exceeding what manufacturers could supply. It was a time of opportunity and ambition.

On 26 April 1949, the now-familiar name Locksmiths Supply Co. was officially registered.

The years following the war were a period of significant change and growth, and LSC was firmly in the thick of it. As early as 1945, the company secured one of its first major accounts with a small Australian manufacturer called Ogden Industries, producing padlocks and rim locks under the Lockwood name. Its founder, John F. Ogden, had previously imported locking products into Australia during the 1930s before moving into local manufacturing.

Another pivotal moment for LSC also occurred in 1945, when a meeting between my grandfather, Aubrey Johnson and a talented engineer named Harry Edmonds helped shape the company's future. Harry was manufacturing key blanks for a small South Australian locksmith and had ambitions to

start his own business. He relocated to Victoria and founded Clavis Industries — Clavis being the Latin word for “key.”

Harry developed the EzyCut key blank range which LSC proudly distributed. From this partnership came the now-iconic C-series numbering system:

- **C1** (Yale) — “C” for Clavis, and “1” for the first blank produced
- **C2** (H.T. Vaughn)
- **C3** (Union)
- **C4** — which would later become one of the most recognised key blanks of all

By the mid-1940s, the company was still importing key blanks and machines from two major US suppliers — Independent Lock Company (ILCO) and Dominion Lock (DL). In fact, A. F. Johnson had imported Australia's first code-cutting machine as early as 1931, a predecessor to the well-known UL78.

Through this period of rapid expansion and innovation, Stuart emerged as the “builder” of the business, helping guide LSC beyond its early foundations and into a nationally recognised operation, laying the groundwork for generations to come.

Mark Johnson

*To be continued..*

# Back to work time means **STOCKING UP** on the essentials

## Easily identified 72/40 Series Coloured padlocks

The ABUS 72 Series padlocks are a standout performer, with many colour, shackle and keying options. Offering full customisation in a serviceable 40 mm padlock.

# CELEBRATING AUSSIE SECURITY BRANDS

**Lockwood** is the leading brand in the Australian locking industry. With a well-established reputation for high quality products, this iconic brand provides a wide range of locking solutions to residential housing, commercial building and industrial application markets.

**ADI** was founded in the mid 1970s by Locksmiths to meet the needs of Locksmiths. The inventors found that specialised locking products didn't exist, so they went about creating them.

Established in 1951, **K.J.Ross Security Locks** started out from humble beginnings to quickly grow to become Australia's most respected name in security products.

CS TECHNOLOGIES

*FREE Evolution software*

Established in 1987 **CS Technologies** is an Australian owned, leader in designing and manufacturing solutions for the building access control and security market.

**Kevron** is an Australian company specialising in the manufacture and supply of identification products for keys, fobs, credentials and even your pet or your wine!

Established in the late 1980s, **D&D Technologies** is a company dedicated to the design and manufacture of top-quality, state-of-the-art gate hardware products.

**Austral Lock** is the Australian market leader of premium door and window hardware, providing locking solutions for windows, security screen doors (hinged or sliding) and sliding patio doors (aluminium or timber).

LOCKFOCUS

**Lock Focus** has been at the forefront of lock mechanism innovation in Australia since 1972. They continue to manufacture the majority of their products in Australia, making Lock Focus one of the last lock manufacturers in the country.

Founded in 1917, **Sutton Tools** remains an Australian family business that is renowned for its high-quality power tool accessories and cutting tools for the hardware market and a wide range of specialised industrial applications.

**Telkee Key Cabinets** is Australia's #1 Key Management Solution. For over 70 years they have manufactured commercial quality lockable key management systems in Sydney, Australia.

# SIMPLE STEPS TO A MORE SECURE ACCOUNT

As the new year begins, it's a good time to review how you and your team protect your account. Strong passwords help safeguard orders, pricing, and payment information.

## WHY PASSWORD SECURITY MATTERS?

Your online account contains sensitive information. Weak or reused passwords increase the risk of unauthorised access, especially with multiple users.

## TEAM ACCOUNT RESPONSIBILITY

Each team member should have their own login and keep passwords private. This improves accountability and reduces security risks.

## BEST PRACTICE PASSWORD HABITS

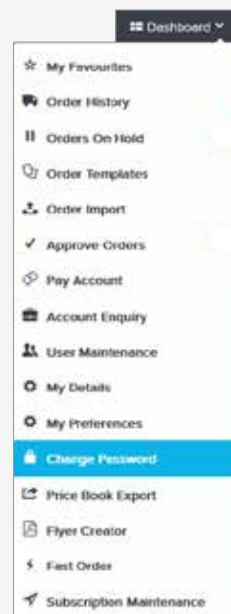

- Use a strong password with letters, numbers, & symbols
- Avoid reusing passwords from other websites
- Never share passwords between staff
- Update regularly, especially after staff changes

## MAKE IT A NEW YEAR HABIT

The new year is a great time to refresh passwords and review account access. A few minutes now can prevent problems later.

## HOW TO UPDATE YOUR LSC PASSWORD

1. Log in to your account
2. Go to the Dashboard menu
3. Select "Change Password"
4. Follow the prompts to create a new password

*One User,  
One Login*

*Use Strong  
Passwords*

*Never Share  
Passwords*

*Update  
Regularly*

*Avoid Reused  
Passwords*

# AN INSTALLER-FRIENDLY CCTV SECURITY CABINET BY DATATEK

*Now available in Black!*

Looking for a secure, professional way to mount and protect CCTV equipment? The DataTek 24SECCAB Security Cabinet is designed with installers in mind. Built from cold-rolled steel with a durable hammer-tone finish, it provides a tough, clean solution for on-site monitor and recorder installations.

The cabinet supports up to a 24" monitor with 50/75/100mm VESA mounting and carries loads up to 30kg. A pull-down door with adjustable mounts allows up to 2RU of equipment, making it ideal for housing

common NVRs or DVRs, including 4-drive units. Extra space beneath the monitor provides room for accessories such as a mouse or compact UPS.

Integrated dual USB-powered cooling fans, V-shaped ventilation, protected cable entry points, and a pre-installed 5-outlet PDU help simplify installation while keeping equipment secure and well-ventilated.

The DataTek 24SECCAB delivers a neat, secure, and installer-friendly solution for professional CCTV deployments.

- ✓ Supports up to a 2RU NVR or DVR (or similar equipment) with a flexible mounting system allowing for variable width adjustments (240 - 480mm wide x 465mm deep)
- ✓ Supports up to a 24" (max) monitor with support for VESA 50/75/100 mounting points
- ✓ Supports a small UPS (Uninterruptible Power Supply) to be fitted into the bottom of the cabinet
- ✓ Strong, compact construction with a neutral finish that is mark, scratch and fingerprint resistant
- ✓ Safe & secure with dual cabinet locks
- ✓ More airflow vents than standard cabinets, plus 2 included & pre-installed cooling fans. Fans are connected via a Y-cable to plug into a single USB power source (not included)
- ✓ 5 - Outlet Power Rail (PDU) is included, pre-installed & RCM approved
- ✓ Unique expandability function allows for a 19" Rack mounted PDU for more outlets
- ✓ Strategically positioned Ø 50mm knockouts with protective cable grommets to minimising tampering and sharp edges against your pass-through cables
- ✓ 4 keyhole style mount holes for quick, efficient & secure mounting

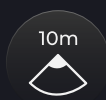

# PICCOLO

## A Smart Choice for Clean, Modern Installations

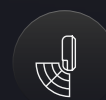

RWX96P40200A

**Convex lens enhances  
catch performance**

**Adjustable range  
up to 10m**

**Creep zone to avoid  
blind spots**

**Contemporary clean  
design**

**Magnetic bracket for  
easy installation**

**Easy battery  
replacement**

### Piccolo

A stylish solution for residential and small to medium commercial installations, the Wireless Piccolo is a compact PIR detector that provides unrivalled performance, sensitivity and reliability, and includes a creep zone feature to cut out blind spots.

### Simplicity

The magnetic bracket makes both installing the detector and replacing the battery quick and easy

### Unrivalled performance

The convex lens shape provides enhanced catch performance and sensitivity, adding to the detector's reliability

### Blind Spot Free

The creep zone feature detects movement directly below the device and eliminates blind spots

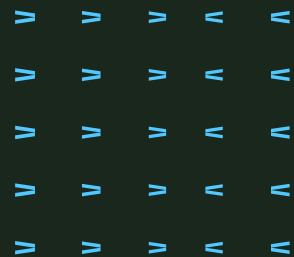

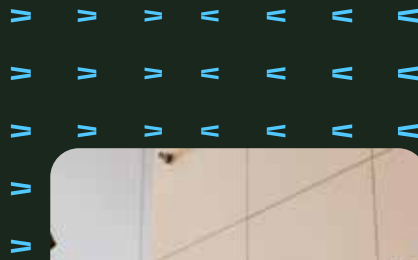

## XS4 Eco.Lock

LM100A00

### Smart, sustainable locker access - made simple

The SALTO XS4 Eco Lock is a smart electronic locker lock designed for fast, effortless installation and secure keyless access to lockers and cabinets. Fully integrated into the SALTO smart access ecosystem, it delivers flexibility, reliability, and a seamless user experience—without the need for wiring.

Users can securely open and close lockers by simply presenting an authorised credential to the lock button. The solution supports both traditional RFID credentials and digital mobile keys, making it ideal for a wide range of applications.

### Key Features & Benefits

- Intuitive, ergonomic design with push-button operation
- LED status ring clearly shows locker availability and authorisation
- Plug-and-play, reversible design for rapid on-site installation
- No wiring required, reducing install time and lifetime costs
- Multiple access options:
  - Smart RFID credential (SVN)
  - Mobile key via NFC / Bluetooth LE
- Flexible locker modes: personal lockers, free-assignment lockers, and automatic opening
- Secure, encrypted communication via SALTO Virtual Network (SVN) and BLUEnet Wireless
- Real-time audit trails and system management
- Low maintenance with long battery life and easy, secure battery replacement
- All components housed inside the door, protected from vandalism
- Durable, sustainable construction using halogen-free, V0-rated solid plastic (PC)
- The XS4 Eco Lock offers a modern, secure, and scalable locker solution—perfect for projects requiring speed, simplicity, and smart access control

# McGrath Smart Lock Consumer Campaign Driving Trade Demand

Launched in November 2025, the McGrath Smart Locks Consumer Campaign is already making a difference. Paid media, social advertising, and our dedicated consumer social channel are helping homeowners find and choose McGrath Smart Locks – and importantly, find you, our Trade Network partners.

## What this means for you

### More customers calling and visiting

December saw a surge in website traffic and store locator usage, with more homeowners actively searching for trusted McGrath retailers and installers.

### More jobs to quote and install

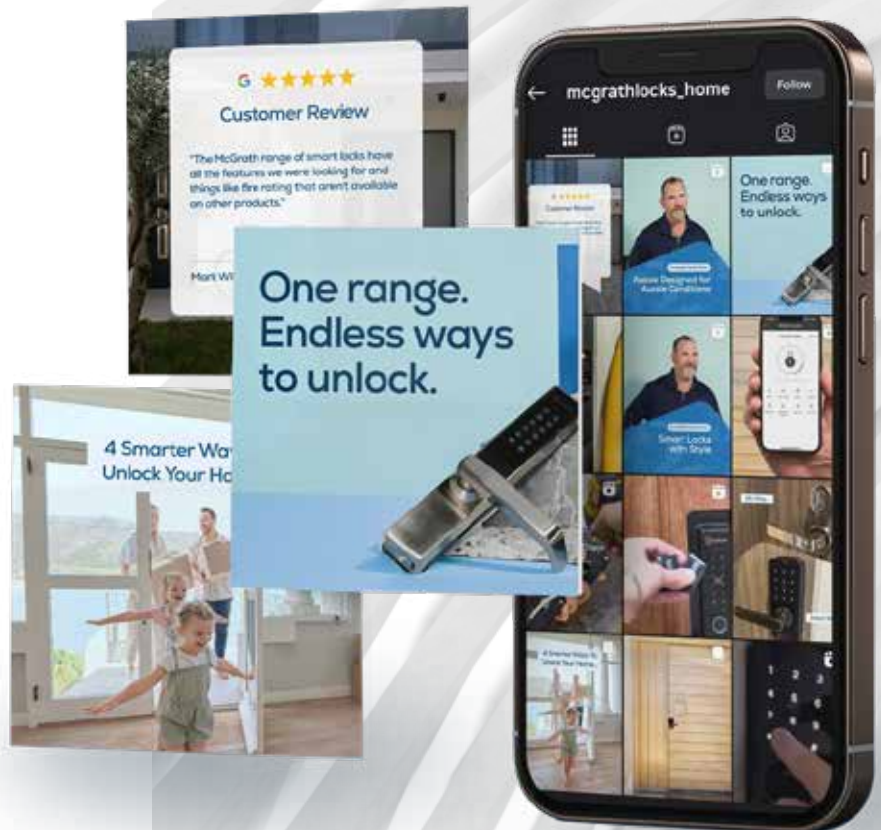

Consumers are moving from awareness to action, giving you more opportunities to convert into sales.

### Better quality enquiries

Consumers are coming ready to buy, making it easier for you to convert interest into booked jobs.

## Join the McGrath Smart Lock Trade Network

Talk to LSC today to join the McGrath Smart Lock Trade Network, or scan the QR code to learn more.

## Web Traffic Growth

The campaign is driving real work – more calls, bookings, and installs – as homeowners visit [mcgrathlocks.com.au](https://mcgrathlocks.com.au) to find Trade Network partners.

**+339%**

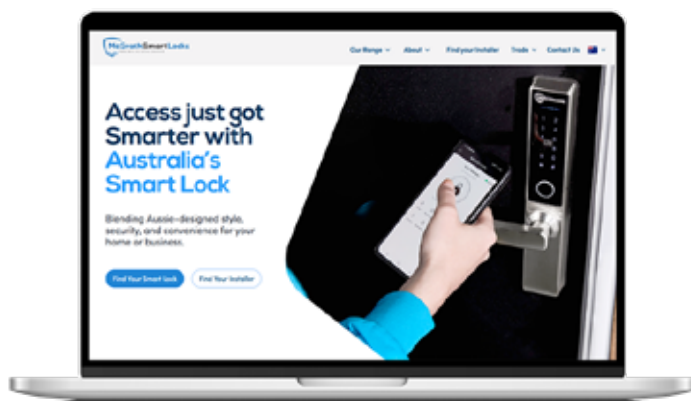

Website Traffic

**+56%**

McGrath Smart Locks searches on Google

**+194%**

Retailer & Installer location searches

## What's Coming – Web Refresh

Building on the momentum from our Consumer Campaign, we're updating the [mcgrathlocks.com.au](https://mcgrathlocks.com.au) website to make it easier for consumers and trade partners to connect.

### New features coming soon

- Consumer-focused design – more engaging experience
- Improved AI assistant – smarter guidance for visitors
- Trade portal coming soon – tools for Trade Network partners
- Helpful content and tips – practical information for all users

# EVENT PREVIEW 2026

Save these dates!

# 2026

In 2026, LSC is proud to exhibit and support our valued trade partners at a variety of key events pivotal to the security industry. These gatherings unite security professionals from around the globe, fostering collaboration, innovation, and progress within the field.

Throughout the year, attendees will benefit from numerous opportunities for professional development, including hands-on training sessions, informative

workshops, and the prestigious annual celebrations. These events provide a platform to exchange ideas, share expertise, and build lasting connections.

LSC remains committed to supporting the continued evolution of the security industry. Together, we strive to meet the challenges of tomorrow and deliver solutions that set new standards in safety and security.
