**Dormakaba Door Closers**
Whether for private homes or contemporary office buildings, door closer systems from dormakaba are intelligent, integrated access solutions that combine consistency, convenience, design and premium quality. The wide-ranging product portfolio satisfies a broad spectrum of functional requirements and thus offers solutions for almost any individual door situation.

# SAM MILLAR

## RUSWIN INTEGRATED SECURITY SYSTEMS | QLD

### AUSTRALIA'S BEST YOUNG LOCKSMITH 2019

## ABYL WINNER 2019

We had a brilliant response from young locksmiths across the country. Ultimately, there could only be one winner, and after a final round of judging Sam Millar of Ruswin Integrated Security Systems was crowned Australia's Best Young Locksmith 2019.

Sam was flown to Melbourne for a tour of several industry specialist sites while enjoying the city with a couple nights of accommodation. Sam was presented with the ABYL trophy and prizes by LSC CEO, Mark Johnson.

## OUR SUPPORTERS

We are grateful to Assa Abloy, Sutton Tools and KJ Ross for their continued support. Each of these sponsors has supported the ABYL competition since its inception in 2012.

AMC jumped onboard as a new sponsor in 2017 and has been a great addition. The support that our sponsors provide ABYL lets us run a great competition and continue to advocate for young locksmiths across the country.

# PRODUCT SPOTLIGHT

## M5 SERIES DIGITAL SMART LOCKS

**2 HOUR FIRE RATED**

# USE THE CHIP YOU CAN TRUST FOR THE LONG TERM

**Why risk that your customers key stops working when they least expect it?**

Silca's GTIW carbon wedge chips are rigorously tested and certified to conform to the strictest CE tests, and comply with EN300330, the test for signal conformity, stability and quality. When the GTIW talks to your car, the car doesn't have to strain to listen. The GTIW chip gives exactly the right signal, at the right frequency, at the right moment. It does so again and again without degradation.

*Trust in Silca*

**Silca GTIW Universal Wedge Clonable Transponder**
SGTIW

- OEM quality certified chip
- Highly reliable, rugged, dependable
- Compatible with all Texas Instruments Fixed & Crypto and Philips Crypto original transponders

# SMART AERIAL

**SMART Aerial** ADC242

Since its initial release the functionality of the Smart Aerial has been greatly enhanced. Used in conjunction with the Smart Pro the ADC242 Smart Aerial is capable of;

- Identification of transponders
- Greatly increased transponder production to include Texas Crypto, Texas 80 Bit, Philips Crypto, PH/CR2, Texas 128 Bit, Philips Crypto 3
- Precodes aftermarket transponders with vehicle specific data to allow for diagnostic programming; BMW CAS3, Fiat precoding, VW Component Security, VW MQB precoding, Renault precoding and more

# 2020 MARKS THE 20<sup>TH</sup> AN

The UK based company were and continue to be true pioneers in the development of key and remote programming solutions. Over the past 20 years many competitors have come and gone as have inferior imitations of the Advanced Diagnostics product range.

Since its launch in 2018 the SMART Pro™ has been a huge success. Software development ceased for the AD100 Pro/MVP Pro in 2019, as many AD100 Pro/MVP Pro users had transitioned to SMART Pro™ during 2018. Since then new software releases from Advanced Diagnostics are exclusive to the SMART Pro™ only.

**These new Smart Pro only releases, some of which were world firsts include:**

- ADS2275 8C Code Word
- ADS2223 Holden Captiva
- ADS2263 BMW Mini
- ADS2267 MAZDA 2018/2019
- ADS2269 Ford 2019
- ADS2274 GM PIN Read

- ADS2279 GM 2018
- ADS2280 Hyundai/Kia
- ADS2281 Mitsubishi 2017
- ADS2287 Renault 2019
- ADS2291 Chrysler / Dodge 2019
- ADS2292 VW MQB

## 2000
**AD100 Classic**

## 2003
**MVP Classic**

## 2006
**AD100Pro or MVP Pro**

## 2010
**AD103/AD104 Smart Card & Calculator**

Adv

TCL Security

> *The Advanced Diagnostics SMART Pro™, in my opinion is the most powerful and efficient key programming tool released in my 10 years experience in the automotive locksmithing industry.*
>
> *Thanks to the user friendly SMART Pro™, the once heavily relied upon technical support is now reserved for the more complicated and advanced enquires, for which the highly intelligent, well trained, and experienced staff are always able to formulate a useful answer.*
>
> *Overall the interface, use-ability and coverage far outshines any other key programming tool I have used. With the rate at which updates and improvements are released by Advanced Diagnostics, there's no doubt that it will continue to lead the market for many years to come.*
>
> **Joel Farkas TCL Security Cairns Queensland**

# NNIVERSARY OF *ADVANCED* DIAGNOSTICS

Advanced Diagnostics SMART Pro™ still delivers the broadest coverage of any key and remote programming tool in the market today. While the average age of the automotive fleet in Australia is approximately 10 years, the SMART Pro™ provides coverage, manufacturer specific, from late 1990s through to current 2020 builds. Recent examples of bug fixes being applied to older vehicles include GM IMMO 1/2, Landrover Discovery bar code remotes and Nissan NATS 2 as found in older patrol models.

This commitment to cover older vehicles while maintaining pace with new model releases extends the capabilities of SMART Pro™ far beyond that of other tools. Simply put no other tool matches SMART Pro™ for coverage.

LSC have been a distributor of the Advanced Diagnostics product range for most of the 20 years. The collaborative approach to software development together with a high level of local technical support means end users are guaranteed that development and support for the local market is to the forefront.

**Points to consider when purchasing a diagnostic tool:**

- Longevity of the developer in the market
- Historical life cycle of the developer's products
- Continued ongoing development relevant to local market
- High level local technical support

- Safe and secure software
- Potential modification or damage to the vehicle from inferior tools

SMART Pro™
Realeased

*We have been using the SMART Pro™ for over a year now, this unique and versatile machine has really expanded our range and confidence in the automotive world.*

*The Smart Pro's features make programming easy to achieve with clear menus and step by step procedures which is essential for successful key programming.*

*One of my favourite features of the SMART Pro™ is the in depth vehicle descriptions and information which is unlike any other machine I have used in the past.*

*The SMART Pro™ consistently delivers efficient and reliable key programming on a daily basis and the support for the machine is unparalleled.*

- Design masterkey systems for virtually any type of cylinder from every important manufacturer in the world

**PM8 PREMIUM SOFTWARE**
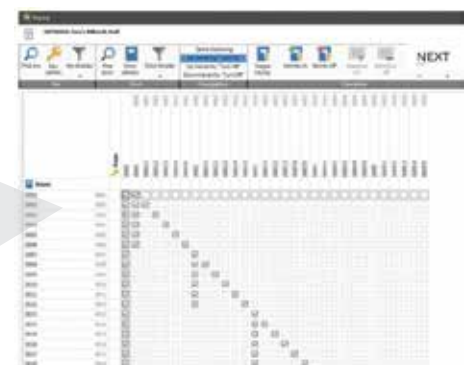

# Keyless Digital Deadlatch Upgrade Kit

Upgrading the old to the new is now easier with The Keyless Digital Deadlatch Upgrade Kit. Upgrade your mechanical Lockwood 001 or 002 or Whitco W75 series deadlatch, to a digital lock within minutes.

By upgrading to the Digital Deadlatch allows users to access their home via PIN code without the need to carry their keys. Users can add up to 20 user PIN codes and 20 key tags/cards, allowing shared access to family members, cleaners or visitors. PIN Codes can also be time controlled for a period of up to 24hrs allowing visitors to access the lock within the given time.

PART CODE: YRD01KDLNRCP

**LSC** | House of Trusted Brands
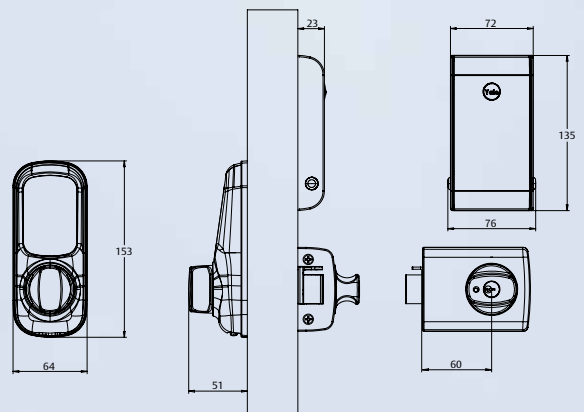

# THE VERROO SMART RANGE

- Controlled by the Verroo App
- 3 Access levels, Owner, Admin and Normal
- Up to 1,000 users (model dependant)

- Timed access eKeys
- Passage Mode
- Customisable unlock time
- 1,000 Event audit trail

- Battery saving features
- Battery life indicator in App
- iOS, Android compatible

**The Verroo Smart Mortice Strike** shares the industry standard electric strike footprint and is an ideal solution for your commercial premises. It is a perfect solution where the premises existing access control system is no longer working. Unique to the Verroo Smart Mortice is the optional ordering addition of a key operated lock out cylinder giving the ability to quickly lock out all eKey access in an emergency situation.

# ABUS SPONSOR LOCAL TALENT

ABUS are proud to sponsor Stacey Van Wetering a rising star in the world of Superbike Racing. Now in its third year, this sponsorship continues to provide a welcome opportunity for ABUS to promote their LOVE IT? LOCK IT™ message to over 25,000 racegoers over the season.

Alongside the branded racing mat, bike and flags, ABUS have provided Stacey with s Granit WBA 60 Anchor, ABUS Chain 14MKS & 8KS, 1200 Chain Combo Lock, ABUS Rock 83/55 and Granit 37/55 to keep her Aprilia RSV4 safe and secure when it's not zooming around the track. Because if you love it, you should lock it with ABUS.

We wish Stacey the best of luck for the start of her 2020 season, which kicks off on the 7th of March with Round 1of the Hartwell MCC Championship at McNamara Park, Mount Gambier.
