AUSTRALIA'S MOST TRUSTED COMMERCIAL PADLOCK

With the largest range of options & accessories available, custom etching or embossing & Australian Standard Certified it's no wonder the ABUS 83/45 & 83/50 are the locksmiths' padlock of choice. The AS4145.4 2002 standard applies to padlocks used in conjunction with padlock fittings. Requirements that relate to;

- **PHYSICAL SECURITY** is classified under 10 levels, based on performance tests that simulate attack. The security rating is based on the lowest test result achieved.
- **CORROSION RESISTANCE** is classified under 5 levels, based on standard accelerated corrosion tests.

ABUS 83/45

Physical Security Rating SP6

Corrosion Resistance Rating C4

ABUS 83/50

Physical Security Rating SP6

Corrosion Resistance Rating C4

Your customers can rest easy knowing their ABUS 83/45 and 83/50 padlocks are Australian Standard Certified, as requested by many commercial insurers & Government Depts. Just another reason why ABUS is the locksmiths' padlock of choice.

Tested and Australian Standard Certified AS4145.4 2002

Locksmiths choice when Uncompromised Security is Required

When that high security job or Government installation requires high security padlocks, it's time to use an ABUS 83 series solid hardened steel body version. The models below are SEEPL Certified for use in Australian Government facilities.

MCGRATH LOCKS ALBION DIGITAL LOCK

The ALBION by McGrath Locks is a sleek and stylish lock designed for the Australian market. A great addition to the home, office or business, this 4 in 1 digital door lock provides a versatile and convenient method of entry that allows you to easily manage who has access to your property.

- Lock functions and access easily managed via TTLock App
- Enrol Pin Codes, RFID credentials and send eKeys to your family and visitors
- Passage Mode can be used to leave your door open when required
- Anti peep code function stops unathorised people seeing the correct code inputted

MLALBION

LOCKWOOD ELECTRIC STRIKE

The ES9000 overcomes the real life issue of side pressure, commonly known as pre-load, easily opening with up to 25kg of pre-load applied to the strike. Pre-load is commonly caused by pulling on a door before it unlocks, by the weight of warped or drooping doors or by differential air pressure created by heating and cooling systems.

- Multi voltage 10 volts - 30 volts
- Weather resistant to IP54
- SCEC approved
- 4 hour fire rating

- ✓ Precision made
- ✓ Easy to install
- ✓ Extensive range of parts
- ✓ Years of trouble-free service

Unlocking Accessibility with BRAVA DDA Compliant Levers

BRAVA's range of DDA compliant levers combines accessibility, durability, and security to meet the highest industry standards. Designed for easy grip operation, these levers ensure effortless use for individuals with limited hand dexterity and mobility, complying with BCA AS1428.1-2009 for accessibility. Successfully tested for up to four hours on fire door assemblies in accordance with AS 1905.1-2005, our levers offer both peace of mind and long-lasting performance.

Beyond accessibility and fire safety, BRAVA levers incorporate a Silca LW5 profile 6-pin cylinder and feature the popular PD 8221 barrel, ensuring high-security functionality. Compatible with most restricted keying systems, these levers provide flexibility for commercial and residential applications requiring key control and system integration. Whether you're upgrading an existing space or securing a new project, BRAVA delivers accessibility, compliance, and security in one complete solution.

EBGMBC

Electronic Break Glass (EBG)

Imagine never having to attend and manually reset a break glass ever again!

- ✓ Automatic Reset
- ✓ Remote Reset
- ✓ Local Reset

The Jack Fuse Electronic Break Glass marks a major breakthrough in security technology, introducing remote and automatic reset capabilities. For the first time, manual resets and their associated costs are eliminated.

With innovative reset modes and integrated audible-visual feedback, security is significantly enhanced by minimising the duration doors remain unlocked unnecessarily and deterring nuisance activations.

NEW

APPLICATIONS

- ✓ Emergency door release
- ✓ Electric locks, auto doors and gates
- ✓ New installations and retrofits
- ✓ Remote facilities
- ✓ High-security sites
- ✓ Managed and unmanaged buildings

To learn more about the EBG, visit our website lsc.com.au or speak to your local LSC branch or representative.

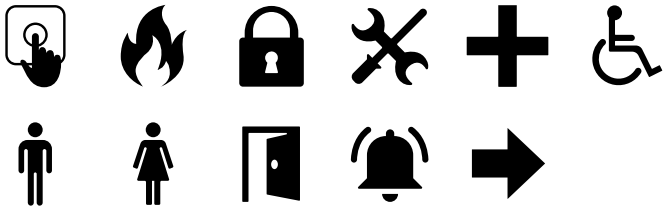
LODESTARW

Customise the Loadstar with supplied icons



LODESTAR - Versatile Alarm Indicator

The Jack Fuse Lodestar is a highly adaptable, multi-colour audiovisual alarm indicator designed for seamless customisation across various security and alarm applications.

Its sleek, low-profile casing—available in two colour options—combined with a wide viewing angle ensures both practicality and modern aesthetics.

NEW

APPLICATIONS

- ✓ Door open to long alarm
- ✓ Duress indicator
- ✓ System armed/disarmed/alarm
- ✓ Nurse call
- ✓ Laboratory alarm
- ✓ BMS alert
- ✓ Wall or ceiling mount

MCGRATH LOCKS LUNCH & LEARN

McGrath Locks National Lunch & Learn Roadshow a Great Success!

McGrath Locks recently wrapped up an exciting and successful Lunch & Learn National Roadshow, touring across Australia throughout February.

Featuring McGrath Locks founder and product developer, Graeme McGrath and LSC's McGrath Locks product manager David Cooper, the roadshow visited LSC branches in Adelaide, Brisbane, Sydney, Perth, and Melbourne.

Attendees had the opportunity to explore the McGrath Locks trade grade product range, gaining hands-on experience and learnings from Graeme's many years of involvement with the feature rich TTLock app. These light-hearted and fun sessions were informative and interactive, allowing customers to see firsthand how McGrath Locks' unique product range offer smart solutions for the Australian market.

The roadshow was a great success with each Branch hosting multiple sessions to a packed audience. With food and drink provided and McGrath Locks giveaways on the day, make sure you RSVP quick for the next event in your state.

MELBOURNE TEAMS CORPORATE TRIATHLON

LSC Joins Team Salto at the Melbourne Corporate Triathlon

On Sunday, 23rd of February, LSC staff joined Team Salto to participate in the Melbourne Teams Corporate Triathlon. The team-based events feature a 300m swim at Elwood Beach, a 10km ride on a closed beach road and a 4km run along the beach path. It was a beautiful, hot day at Elwood Beach, and Team Salto made sure the event was memorable with a post-race BBQ and refreshments for everyone to enjoy.

As proud gold sponsors of Team Salto we were delighted to compete alongside them, raising money for a great cause. Together, we raised an incredible $37,926 for the Kevin Coombs Cup Victorian Wheelchair Basketball Team.

The cheque was recently presented to Ben Pahl, Chief Operating Officer of Basketball Victoria, by Salto Oceania General Manager Caine Hillier at Salto's 2025 Sales Conference.

Through the Salto Foundation, Salto is involved in many initiatives to connect communities through sports and social programs. Well done to everyone who competed and donated; it was a pleasure to be included in this event and to contribute to such a fantastic cause.

McGrath Locks
MAKING ACCESS EASIER

Congratulations!

Adelaide Locksmiths

Throughout February, LSC ran an exciting promotion in collaboration with McGrath Locks, offering businesses the chance to win a Cooly Cruiser E-Bike from Big Kahunaz, valued at 2,990.

For every $500 spent on McGrath Locks during the month, businesses received one entry into our random prize draw, with many earning multiple entries based on their total spend.

The draw took place at our North Melbourne branch, where LSC National Sales Manager Warren Nelson selected the winning ticket from a barrel filled with entries. The lucky winner? Adelaide Locksmiths!

Congratulations to the lucky winner, and a heartfelt thank you to all who purchased McGrath Locks throughout February.

Australian consumers are increasingly embracing smart locks, and it's fantastic to see so many locksmiths stepping up to meet this demand. If your business wants to stay ahead of the curve, LSC's TechEd training division now offers a fully online Smart Lock Installation & Commissioning Certification, which teaches skills applicable to a wide range of smart lock brands.

"The smart lock installation course was a great investment. This training gave me the confidence and knowledge to install smart locks safely and effectively, along with a valuable certification."

wrote Sydney Xpress Locksmiths, who recently completed the course.
