Lock in Pole Position with dormakaba

Salto Partner Area

ABUS 83/40 & 83AL/40 SERIES PADLOCKS

*Nano-Protect™ plating
Ultra-light and strong*

Enjoy the quality benefits of the 83 Series Rekeyable padlock range in a 40 mm compact body.

Available in traditional brass body or nine lightweight coloured anodised aluminium body making it easy for identification. Lighter in weight with the same strength properties as brass. These padlocks are perfect when a smaller shackle diameter is required for keying systems.

With LSC's massive range of shackles in various sizes & materials as well as spare parts like collars, weather covers, keyed to differ or less plug options it's no wonder more Locksmiths choose ABUS.

Red 83ALIB40REDKD	Orange 83ALIB400RGKD
Titanium 83ALIB40TITANKD	Purple 83ALIB40PURKD
Blue 83ALIB40BLUKD	Black 83ALIB40BLKKD
Green 83ALIB40GRNKD	Stainless Steel Shackle 83IB40KD
Yellow 83ALIB40YELKD	Hardened Steel Shackle 8340NKD
Silver 83ALIB40SILKD	

Features:

- 40 mm solid machined brass or Titalium lock body
- 6.4 mm special alloy steel shackle with Nano-Protect™ plating or stainless steel
- 25 mm shackle as standard (range of replacement shackles are available)
- Double ball locking
- Removable cylinder assembly for quick rekeying
- Incorporates the popular 570 6 pin style barrel
- Compatible with most restricted keying profiles
- Quick change shackle feature
- Easily converted from snap shut to key captive function

We can also provide custom embossing to suit your customers needs or company colours.

*Be compliant!*

BRAVA METRO DDA LEVERSETS

Unlocking Accessibility with BRAVA DDA Compliant Levers

BRAVA's range of DDA compliant levers combines accessibility, durability, and security to meet the highest industry standards.

Designed for easy grip operation, these levers ensure effortless use for individuals with limited hand dexterity and mobility, complying with BCA AS1428.1-2009 for accessibility. Successfully tested for up to four hours on fire door assemblies in accordance with AS 1905.1-2005, our levers offer both peace of mind and long-lasting performance.

Beyond accessibility and fire safety, BRAVA levers incorporate a Silca LW5 profile 6-pin cylinder and feature the popular PD 8221 barrel, ensuring high-security functionality. Compatible with most restricted keying systems, these levers provide flexibility for commercial and residential applications requiring key control and system integration. Whether you're upgrading an existing space or securing a new project, BRAVA delivers accessibility, compliance, and security in one complete solution.

AUTOMATE & STREAMLINE

Increase Profit while freeing up labour to make you even more!

Key cutting is usually one of the most profitable parts of any good locksmithing business, but if not managed carefully, labour cost can eat into what looks good on paper.

Luckily, there's a solution for that. With EOFY approaching, now is a good time to put your key cutting under the microscope.

We made some conservative calculations, which show that an average sized business can recover the investment in an automated machine in around one year on the labour saving alone. That's before you add the benefit of accuracy, consistency, speed and reliability.

Smaller businesses can recover it in two years, but either way – it's one of the fastest ways you can 'create' qualified staff to do more jobs.

With qualified staff remaining in high demand – make sure you're deploying your team where they solve the most problems – don't let them get tied up in the workshop doing something you can automate.

Talk to our team about a Silca Unocode F800 or F900 now.

Feed, cut, engrave, sort – all automatically.

HANDS ON SILCA TRAINING

Last month, our Silca PM Tom Stokes and Technical Support officer Aaron Belfall were at Silca in Italy for hands on-training.

Topics covered included the Unocode F-Series, Futura family, and Protech – with a deep dive being taken into each machine. Silca's Technical Assistance team along with factory assembly representatives joined in to keep us up to date around how the machines are put together, with special attention to be paid to servicing and calibrating.

We shared experiences from the market, and with Australian locksmiths being one of the most advanced bunch in the world – Silca value and need our feedback, experience and knowledge from the market to keep innovating and coming up with new solutions.

The knowledge we get out of the visit is shared with our team here, and together this helps LSC offer you an unparalleled level of capability when it comes to all things for expert key cutting. Got a key to cut? We'll be able to help you get it done to the manufacturers original specifications. Oh, and they have really good pizza there!

MCGRATH LOCKS KEYSAFE

The KEYSAFE by McGrath Locks is a stylish and feature rich key box that can be used to securely store a spare key or access card to your property. A great addition to the home, office or business, this 5 in 1 digital key safe lock provides a versatile and convenient method of entry that allows you to easily manage who has access to your property.

Utilising the powerful TLock App, lock and user settings are easily configured and managed. Access can be provided to family and visitors alike through pin code, RFID credential, eKeys managed via BLE and mechanical key override. By adding a McGrath Locks Wi-Fi gateway you can remotely unlock the KEYSAFE from anywhere in the world using the TLock App.

LSC Visits Solar City

Salto & Keegan Moylan

Solar City Locksmiths

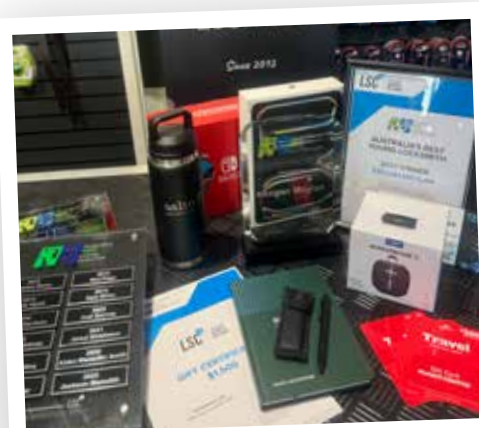

Australia's Best Young Locksmith | 2024 winner

Keegan Moylan | Solar City Locksmiths

The search for Australia's Best Young Locksmith always draws an exceptional response from talented young locksmiths nationwide. Following an intensive judging process, we were delighted to crown Keegan from Solar City Locksmiths (VIC) as the recipient of this prestigious title.

In celebration of his remarkable achievement LSC staff visited Keegan in Shepparton to present him with his award and prize pack. Together with our partner from Salto we hosted Keegan and several of his colleagues to a congratulatory dinner.

Since its inception in 2012, ABYL has been a prestigious competition, championing the next generation of locksmiths nationwide. We appreciate the support of ASSA ABLOY, Sutton Tools, and KJ Ross, who have been with us since the beginning, and Salto, which joined as a valued sponsor in 2022. Their contributions help us run a great competition and continue advocating for young locksmiths.

ABYL Prize Pack

Sponsored by:

LSC PARTICIPATES AT THE NZ MLAA EXPO

What a fantastic day at the NZ MLAA Trade Expo on March 21, 2025, at the Cordis Hotel, Auckland! We had a great time connecting with locksmiths and industry professional showcasing our latest security solutions, and discussing how we can support locksmiths across New Zealand.

Some of the most popular highlights at our stand were the McGrath Locks range and live Silca Key Machine demonstrations which drew plenty of interest.

A big thank you to everyone who visited our stand—it was great to chat, demo products, and exchange insights. Events like these are invaluable for learning, networking, and driving the future of security.

We're proud to support the MLAA NZ community and look forward to seeing you again soon!

CREONE

Visit by Robin Storm, Sales Manager, Creone, Sweden

At LSC, we value strong partnerships with our vendors, ensuring we stay ahead with the latest innovations and industry advancements. That's why we were thrilled to welcome Robin Storm, Sales Manager for Creone, Sweden, a global leader in key and storage management solutions, for an exclusive update on their new and upcoming developments.

During the visit, we gained insights into next-generation key management solutions, and expanded product capabilities, reinforcing Creone's commitment to providing secure and flexible storage solutions. These in-person visits are vital in maintaining LSC's strong vendor relationships, allowing us to offer our customers the best products, expertise, and support.

In addition to the business discussions, we took the opportunity to introduce Robin to a piece of local sporting culture by attending an AFL game. It was a fantastic way to share the excitement and energy of one of Australia's most beloved sports while strengthening our partnership. Our direct engagement with Creone reflects LSC's dedication to delivering top-tier security solutions backed by trusted global brands.

We look forward to bringing these exciting innovations to market and continuing to strengthen our partnerships.

For more information on Creone, contact your LSC representative or local branch today!

Save the date | MLAA National Conference 2025

The 2025 National Conference will be held in Sydney on 12-13 September 2025. The Conference & Trade Expo will be held at The Fullerton Hotel Sydney, and the Gala Dinner & Awards night at the Sydney Town Hall. More details will be provided in the coming months, but for now, please save the date!

The Collector's Corner

This month, we're thrilled to showcase an incredible contribution from Ron Davison of **A.S.A.P. Locksmiths Melbourne**, who shared a fascinating collection of historical pieces. With over 50 years in the locksmithing industry, Ron proudly calls himself a bit of a hoarder and hints that there is still plenty more to share with us in the future.

Below we have a selection of pictures of a beautifully preserved Ostertag safe dating back to 1780, featuring a unique timber-look finish – a true example of craftsmanship from a bygone era.

There is a heavy-duty lilac coloured gaol lock from Fairlea Women's Prison, the first all-female prison on Victoria which was located in the suburb of Fairfield.

Ron also shared a rare 1907 Yale key machine which came from Auckland, NZ, it sits above a custom-built cabinet crafted from Kauri pine.

Get involved and share your treasures today!
