Remembering Stuart Johnson

Go Electric with dormakaba | WIN a BYD!

100 Years Celebrated in Style

# *A Tribute to* **Stuart W. Johnson** *1930 - 2026*

This tribute honours the life and legacy of Stuart Johnson, who passed away on Wednesday 15th April in Melbourne, Victoria, aged 95.

Driven by strong family roots and an unwavering commitment to progress, Stuart reshaped the business founded by his father into a global, forward-thinking family enterprise. Widely respected as a true industry pioneer, his journey continues to inspire and influence Australia's modern security sector.

## *Stuart's Journey*

Stuart was born in Melbourne, Victoria 6th November 1930, and went on to become a much loved and respected industry pioneer after joining the business his father, Aubrey Johnson, founded.

Aubrey made many sacrifices to give his son a good education, and whilst Stuart liked school, it was sport that really drew his attention, particularly rowing and football.

Stuart was a social young man with a competitive streak and an obvious desire to achieve. His competitive nature made him a natural fit for a sales job.

When he finished school in the mid-1940s, he joined the Hardie Trading Company as a salesperson. The business sourced and sold steel products, engineering equipment and some white goods - which were becoming must-have conveniences in post-war suburbia. It was his first introduction to the wholesaling business model.

These experiences honed Stuarts keen sense of inventory, warehousing and customer service. After a few years there, Aubrey needed help to get the family business back on track after World War 2, so Stuart joined his father in 1949.

Aubrey firmly believed that more prosperous times were ahead, and working together the true emergence of Locksmiths' Supply Company began. But there was a lot of work to be done to structure the company to meet the growing demand for keys, locks and security products. With Aubrey's optimism and his son's aspiration to create something meaningful, they would put their nose to the grindstone and get to work.

Right from the start Stuart knew that getting out and seeing customers, showing them products and helping them succeed in their business, was vital. In 1949 petrol was still rationed, and you had to present ration-tickets to buy petrol. He would often drive Aubrey's Studebaker until he saved enough to buy a Ford Zephyr.

# Dynamic Leader. Inspiring Legacy

Messages &  
Tributes

*Stuart will be greatly missed, but his spirit & legacy live on at LSC and the many people whose lives he touched.*

Stuart would spend the next 17 years plying his trade out on the road in a variety of vehicles, including his famous Valiant and the newly released Ford XW (but only once the V8 version came out – no petrol rations then!)

With Stuart on board the business began to grow, and like so many other achievements in the history books, they didn't do it alone – their staff and supplier relationships were very special to them. He was a man for the times over this growth period. He was integral to the creation and development of the Master Locksmiths Association of Australia in the 1960's; he helped set up the country's first apprenticeship scheme, and helped professionalise the industry by promoting the skills of locksmiths. Stuart's focus was always divided between growing the industry and his business based on a solid customer service ethic.

*“ Stuart has been an inspiration to me and I am proud to have known him, Margaret and Mark. Through the last 50 plus years we have met at events and through our joint commitment to Apprentice training and the MLAA. Stuart has left a legacy that has set a firm foundation for the Australasian Locksmith Industry. ”*

Precision Key Cutting for Automotive Keys

## Compact. Fast. Easy. Clever.

Silca's latest machine for automotive key cutting is packed with innovative features customers have been asking for.

The new 'search by base article' allows you to see all the cards available for a given mechanical profile, taking guesswork out of search and speeding up the process to find the correct cutting card data.

In a first, Silca allows you to 'copy by original' for track keys, with the machine speedily reading the original key by touch, and producing a faithful copy in just a few minutes – even without a code card. Ideal for those new, exotic or oddball keys where you're the first person to see it – ideal for Chinese cars!

# PRODUCT SPOTLIGHT

Explore Salto's BLUEnet Door Controller range now at [lsc.com.au](http://lsc.com.au)!

## BLUENET DOOR CONTROLLER

The BLUEnet Door Controller is a compact, high performance component within SALTO's BLUEnet Wireless ecosystem. Designed for efficient installation and flexible deployment, it supports both standalone and online configurations, making it suitable for doors, gates, lifts, and barriers across sites of any size.

Compatible with SALTO KS and SALTO SPACE, it integrates seamlessly with cloud or on-premise environments. As a single door controller with one wall reader connection, it also accommodates multiple input and output devices and supports features such as remote opening, lockdown, and SVNFlex updates. Its streamlined design reduces installation complexity while providing scalable, reliable access control.

## SAVE TIME AND SAY YES TO EVERY POSSIBLE CUSTOMER WITH SILCA LUMI

The Silca Lumi is a portable key profile reading workstation that's powered by the MyKeysPro App, and backed by a powerful Ai server in the cloud.

Key cutting is one of the most profitable service offerings in any locksmith business, but only if you can identify the key in a couple of seconds. For a high percentage of keys, that will be easy for professional locksmiths, but when presented with unusual or exotic keys, precious minutes can be lost by inexperienced tradespeople - or worse, you can risk turning a customer away.

**Silca's Lumi solves that.** Lay the key on the scaling table, snap a photo with your smart phone, upload it to the cloud and use Silca's powerful database to analyse thousands of keys in seconds, giving you ranked results.

AUSTRALIAN  
MADE WEEK

BUY AUSTRALIAN

# BACKING AUSSIE-MADE THIS MAY

From 18–24 May, Australian Made Week returns. It's a nationwide campaign celebrating the makers, manufacturers and innovators who keep Australia moving. It also encourages everyone to look for the iconic green and gold kangaroo logo when choosing products.

At LSC, we are proud to support a wide range of Australian brands that our customers know and trust. From ADI, Sutton Tools, Lockwood, Lock Focus, and Kevron, to many more across our range, these are products built for Australian conditions and backed by local expertise.

Whether you are on the tools, specifying products, or stocking up for your next job, choosing Australian-made means choosing quality, reliability and supporting the industry we are all part of.

*This Australian Made Week, let's get behind the brands that are built right here at home.*

# 100 YEARS CELEBRATED IN STYLE

Our 100th Anniversary Gala was a night to remember, a true once-in-a-century celebration that brought together the people, partnerships and moments that have shaped LSC over the past 100 years.

Held in the iconic NGV Great Hall beneath its breathtaking stained glass ceiling, we welcomed nearly 300 guests including our VIP customers, suppliers and sales team who travelled from across Australia, New Zealand and the world to be part of this landmark celebration.

As we marked this milestone, it was a special moment to reflect on our history and the achievements that shaped us, while renewing our commitment to the future

The evening was expertly hosted by MC Emily Rice, setting the tone with warmth and energy, while Brad Blaze delivered a high-impact performance that captivated the room. A special address from Sir General Peter Cosgrove added a meaningful moment of reflection, recognising not only how far we've come, but the strength of the industry and community around us.

From the conversations shared to the moments enjoyed throughout the evening, the night was a fitting tribute to the relationships, people and progress that define LSC.

*Thank you sincerely for being part of this journey together.*

Mark Johnson

# ADJUSTABLE WRISTBANDS WITH EMBEDDED HID SEOS TECHNOLOGY

NEW

Neptune Security Products are excited to introduce our latest addition to the access credential range — Adjustable Wristbands with embedded HID SEOS technology.

Designed for convenience, durability, and modern access control environments, these wristbands provide a secure, contactless credential solution in a flexible wearable format.

### Seamless Secure Access

Powered by HID SEOS, these wristbands deliver highly secure, encrypted credentialing for trusted access across your system.

### Adjustable, One-Size Fit

Featuring a durable Velcro strap, the wristband is easily adjustable to suit all users — ideal for dynamic environments and shared usage scenarios.

### Hands-Free Convenience

Perfect for environments where cards or Fobs are impractical — users can simply present their wrist for quick, frictionless access.

### Built for Harsh Environments

With an IP66 rating, the wristbands are protected against water and dust ingress, making them suitable for both indoor and outdoor applications.

### Ideal Applications

- Gyms & fitness centres
- Construction & industrial sites
- Aquatic centres & leisure facilities
- Healthcare environments
- Events & temporary access control setups

# COMPACT MULLION READER FROM CS TECHNOLOGIES

If you're looking for a dependable, no-fuss reader that fits neatly into a wide range of installs, this compact mullion reader continues to be a strong performer in the field.

Designed with a slim mullion form factor, it's ideal for narrow door frames, aluminium entries, and retrofit jobs where space is limited. It installs cleanly and quickly, making it a go-to option for standard access points without overcomplicating the job.

### Why installers keep choosing it:

- Slim mullion design — ideal for tight mounting spaces
- 125KHz support — perfect for legacy and budget-conscious systems
- IP65 rated — suitable for internal and external installs
- Strong price point — helps you stay competitive and win more jobs

CS8101

*A simple, effective reader that gets the job done.*

# ULTIMATE SPORTING EXPERIENCE

## CONGRATULATIONS

### BELLS LOCKSMITHS (NSW)

We have a winner!

After months of excitement, our ASSA ABLOY Ultimate Sporting Experience promotion has wrapped up, with one lucky customer unlocking an epic sporting experience for themselves and a friend. A huge thank you to everyone who entered!

## ASSA ABLOY

# BUILDING A SUSTAINABLE & INCLUSIVE FUTURE

## OUR SUSTAINABILITY COMMITMENT

LSC is committed to reducing waste generated through the supply chain via the use of recyclable packaging, including biodegradable plastic bags, jiffy packs, shrink wrap and tape. Cardboard is recycled in-house to create packaging fill—reducing landfill and avoiding the purchase of plastic filler.

Our Distribution Centre operates on solar energy, further reducing our environmental impact. As we work toward a more sustainable future, we also foster a diverse and inclusive workplace that reflects the communities we serve.

## DIVERSITY AT THE HEART OF LSC

LSC has a diverse workforce, and we embrace the things that make us different by celebrating cultural inclusivity. Across our team we have a broad range of ethnic, social and religious group representation. Our team reflects modern Australian cultural mixes and values.

## WHAT WE'RE DOING FOR THE ENVIRONMENT

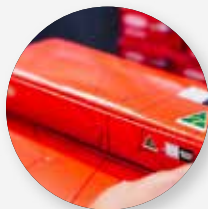

### Solar Power

Powers 70% of our distribution centre's energy needs.

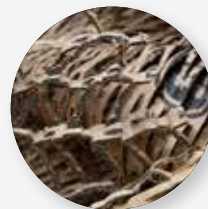

### Biodegradable Satchels

Break down safely without harmful microplastics.

### Responsible Suppliers

Our Partners reduce plastic with sustainable packaging.

### In-House Recycling

Recycled cardboard becomes eco-friendly packing fill.

### Lithium Battery Recycling

Safe disposal through EcoBatt reduces toxic landfill waste.

### Eco-Friendly Wrapping

Biodegradable packaging reduces plastic and supports sustainable shipping.

# DAHUA TRAINING WRAP UP

Our April Dahua training sessions rolled out across QLD, VIC and NSW, with a strong turnout of customers keen to sharpen their CCTV and video intercom skills. Delivered face-to-face by a Dahua trainer, the sessions combined practical, hands-on learning with real product setup, giving attendees the confidence to specify, install and configure complete surveillance solutions.

Participants also received a Credly digital badge on completion, making it easy to showcase their new skills and training credentials online.

*Missed out? Head to our TechEd page to explore upcoming courses and get yourself and your team trained up in 2026.*

# SECTECH ROADSHOW 2026 PREVIEW

The SecTech Roadshow 2026 is back this month, bringing the latest in security and electronic solutions to five major cities across Australia. Running from 12–26 May, this fast-paced, one-day roadshow will visit Brisbane, Sydney, Melbourne, Adelaide and Perth, connecting thousands of security professionals with leading manufacturers and suppliers.

We're proud to see many of our key supply partners exhibiting this year, including ASSA ABLOY, FSH, Dahua Technology and LOX Locking. Be sure to stop by their stands to see the latest innovations, get hands-on with new products and have a chat with their teams. If you're planning to attend, make sure you pre-register and add it to your calendar – it's always one of the most valuable events of the year.
