J. Johnson

Broadening Horizons:

The Road to Silca

From the April issue, I wrote about how my father, Stuart Johnson, built momentum in the business through the 1950s and 1960s, establishing strong relationships across Australia which help to shape LSC's national presence.

By the late 1970s, the industry was changing. The Australian market required an increasingly broad range of key blank profiles, many of them low-volume, making it uneconomical for local manufacturers to keep pace. At the same time, competition was intensifying.

The challenge was clear: to properly service the Australian market you needed access to thousands of profiles, but the volumes simply didn't justify local production. We could no longer rely on EzyCut alone. A new approach was needed.

That turning point came in 1977 at the ALOA trade show in Albuquerque, where my father met a young Italian, Massimo Bianchi, whose family owned Silca. At the time, Silca was Europe's largest manufacturer of key blanks and machines. That meeting would prove pivotal.

Silca was not entirely unknown in Australia, with small volumes of blanks and machines previously imported. However, it was my father's ability to form a direct partnership with Silca that changed everything, establishing a relationship that would span almost 50 years.

In the early years, Silca played second fiddle to EzyCut, but its reputation quickly grew. Locksmiths began to recognise the quality and precision of Silca machines, with features such as sealed roller bearings, precision-machined reversible jaws, semi-automatic operation and high-quality milling cutters which set a new standard for the industry.

As awareness increased, so too did the appeal of Silca's extensive range, offering over 3,000 profiles locally and more than 10,000 globally. In a market where range mattered as much as reliability, Silca provided a compelling solution.

I joined the business in 1982, initially planning to stay for a short period. That quickly changed. I found an immediate affinity with both the locksmithing industry and the dynamic world of importing and distribution, a space that was becoming increasingly competitive.

Around this time, it became clear that Silca had overtaken EzyCut as our predominant brand, and we began actively positioning the Italian manufacturer as the number one choice in Australia.

The introduction of Silca marked more than just a new product range - it signalled a strategic shift that would help shape the future of LSC.

Mark Johnson

INTRODUCING THE BRAVA MODULAR EURO CYLINDER SYSTEM

Euro cylinder locks have become a staple in the industry, with more doors arriving from overseas fitted with pre-installed locks and offset cylinders. At LSC, we understand the need for a user-friendly, field-changeable solution that works seamlessly with LW4, LW5, and inline restricted keying systems.

No more searching for hard-to-source extended cylinders or dealing with difficult offset cylinders in limited keyways. With the BRAVA Modular Kit, you're in complete control. The BRAVA Modular Cylinder allows easy offset adjustments using 5mm, 10mm, 15mm, and 20mm extension increments, giving you the flexibility to configure cylinders on-site to suit a wide range of door applications.

BR905551MOD6PSC

- 6 pin double euro cylinder
- Fixed cam
- Supplied keyed to differ with 2 keys
- Cylinder length 84 mm
- Compatible with most inline restricted keying systems
- Finished in satin chrome

MCGRATH SMART LOCKS KEYSAFE

The KEYSAFE by McGrath Smart Locks is a stylish and feature rich key box that can be used to securely store a spare key or access card to your property.

The Keysafe by McGrath Smart Locks combines durability and flexibility to suit each user's lifestyle, allowing access via fingerprint, PIN code, RFID credentials, Bluetooth eKeys or a mechanical key override. Powered by TT Lock, the Keysafe operates through the McGrath Smart Locks app, where lock settings are easily configured and managed. Particularly well suited to applications such as holiday rentals, permanent, timed, recurring or one-time access can be granted to guests, family or visitors via PIN codes, RFID credentials or Bluetooth eKeys.

MLKSBK

Remotely unlock the KEYSAFE from anywhere in the world with an additional Wi-Fi gateway.

RELIABLE, ROBUST ACCESS.

A commercial-grade padlock designed for harsh Australian conditions, featuring an IP68-rated boron steel body, Bluetooth and PIN access, and a rechargeable battery lasting up to a year. Built for remote and multi-user applications, it operates completely offline using Igloohome's secure AlgoPIN™ technology.

- Body: Zinc Alloy, stainless steel, rubber
- Shackle: Boron steel
- Modes of access: Pin Code, Bluetooth
- Power type: Rechargeable lithium battery
- Battery life: Up to 12 months*

SMALL BUSINESS SUPPORT \$20,000 INSTANT ASSET WRITE-OFF

Temporary increase of the instant asset write-off limit from \$1,000 to \$20,000 for the 2025–26 income year.

On 4 April 2025, the government announced it will continue to provide support for small businesses by extending the \$20,000 instant asset write-off limit until 30 June 2026.

Under the measure small businesses with an aggregated turnover of less than \$10 million, can deduct the full cost of eligible depreciating assets costing less than \$20,000 that are first used or installed ready for use between 1 July 2025 and 30 June 2026.

The \$20,000 limit under the measures applies on a per asset basis, so small businesses can instantly write off multiple assets. Investing in a new key machine such as the Silca EvoX, Bravo Professional, Marker2000, Futura Edge or others could give you an instant write off.

This information is a general summary and not advice. Speak to your Accountant or Tax Professional before making a purchasing decision to ensure these rules apply to you and are suitable for your business and financial situation.

ALL-IN-ONE, ELECTRONIC KEY CUTTING MACHINE

SERIES

Silca's iconic key cutting machine is now faster, quieter and even easier to use.

CARBIDE CUTTER FOR FLAT KEYS

Featuring a special coating, this carbide cutter will last longer, and will cut thousands of keys - earning you big dollars before it needs replacement

FEATURES:

QUIET OPERATION

NEW CARBIDE CUTTER

Ethernet or single Wifi connection

All-in-one

FUTURA *M* SERIES

Thanks to the familiar, easy to use and powerful software, the ability to cut virtually any key, in a single, compact, fast and reliable machine makes Future M-Series the go-to choice for you.

Futura M features a double cutting station meaning flat, cruciform, laser and dimple keys, both residential and automotive, can all be cut using a single machine.

The wide range of optional accessories available further increases the machine's cutting capabilities allowing almost any residential and vehicle key on the market to be cut.

New with the Futura M-Series are an integrated monitor, new and quieter motors, and a carbide cutter. The tablet is gone, streamlining networking and updates, and removing the need to charge and manage a separate device.

INTEGRATED MONITOR

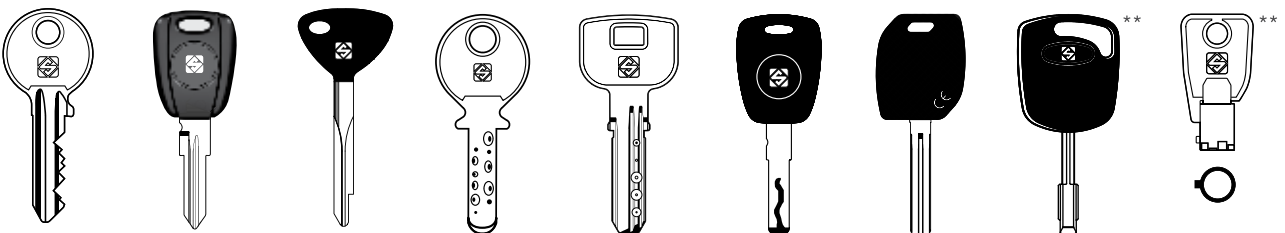

Industrial-grade 10 inch, colour touch-screen display, adjustable to give the perfect view.

EASY TO USE SOFTWARE

Proven, familiar, intuitive user interface with one-touch software updates via the internet.

FUTURA M-SERIES CAN CUT ALL OF THESE KEYS:

** Keys cut with optional accessory for M400 and M600 models

GET AHEAD BEFORE EOFY WITH LSC AND SALTO

Looking to secure stock, win more projects, and avoid delays before the end of the financial year? LSC offers a comprehensive range of SALTO products, supporting both day-to-day supply and large-scale projects. With over a decade of experience alongside SALTO, LSC knows what it takes to keep jobs moving.

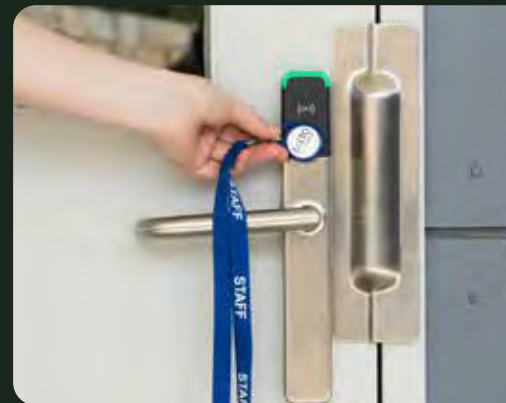

Why partner with LSC for SALTO?

- Trusted SALTO distributor since 2012 with early access to new solutions
- Australia's largest local holding of SALTO stock, ready for immediate dispatch
- National footprint with strong local branch support

Real support, beyond supply:

- 60 plus sales team, including 26 dedicated BDMs and Account Managers
- Dedicated 1300 technical support line
- National SALTO certified tech support team
- National Training Coordinator with tailored training programs available

As a third generation, family-owned Australian business with 100 years of history, LSC is focused on long term partnerships and customer success.

Stock up before EOFY and stay ahead of demand.

Speak with your LSC representative today.

JOIN US AT THE MLAA CONFERENCE 2026

Registrations are now open for the 45th Annual MLAA Trade Expo & Conference, taking place at Marvel Stadium, Melbourne from 1–3 October. Under the theme Unlocking Pathways, this three-day event brings together the best of our industry, featuring expert speakers, hands-on learning, innovation, networking, and the always-popular Gala Dinner & Awards Night.

With early bird pricing available until 30 June, now's the time to lock in your spot.

As part of our 100-year celebration, LSC will be there in a big way - expect special giveaways, exclusive activations, international guests and a few surprises along the way. It's set to be a standout event you won't want to miss!

45TH ANNUAL
TRADE EXPO &
CONFERENCE

1-3 OCTOBER 2026
MARVEL STADIUM, MELBOURNE

Dahua ²⁰²⁶ Discovery Day

Dahua Discovery Day Shines in North Melbourne

We recently hosted a Dahua Discovery Day at our North Melbourne branch, making the most of a beautiful sunny day with a great turnout of customers.

The event featured live demonstrations of the latest technology, including the WizSense NVR with WizSeek functionality and Dahua's new face recognition door station, alongside valuable product updates from the team.

Attendees enjoyed a BBQ lunch, giveaways, and a "Spend & Get" promotion, with Shell eGift cards up for grabs.

A big thank you to everyone who joined us and helped make the day a success.

The Melbourne Home Show 2026

The Melbourne Home Show ran from 17-19 April at the Melbourne Convention and Exhibition Centre, and it was one of the strongest showings yet for the McGrath Smart Locks brand.

Our team joined McGrath Smart Locks at the event, helping to exhibit across all three days. The stand was positioned right near the front entrance, providing excellent exposure to the tens of thousands of homeowners, renovators and new home buyers passing through each day. It was also a great opportunity to showcase McGrath's fresh new branding, which was very well received.

Alongside our team, local qualified locksmiths joined the stand each day, something that continues to set McGrath apart and reinforces their reputation as the locksmith's choice for trade grade smart locks.

The McGrath Trade Grade range was front and centre throughout the show, including newer products like the Grange, Kedron and Ashgrove smart deadbolts. Accessories such as the Keybox, Z Chip and Keypads were also on display, positioning McGrath as a complete smart locking system for Aussie homes.

Amongst several smart lock competitors at the show, McGrath stood out for all the right reasons; an Australian-designed range trusted by locksmiths, a 24-month warranty, and unique features tailored for Australian applications, including fire rated, IP66 and DDA-compliant smart locks.

Consumer response to the range was outstanding, visitors were blown away by the quality and features on offer, giving us great confidence that McGrath's trade-grade products resonate just as strongly with homeowners as they do with locksmiths. The new catalogue proved a real hit as well.

McGrath Smart Locks are only sold by LSC to trade professionals, not direct to consumers. So we're thrilled for McGrath to have generated business for locksmiths across the weekend, referring homeowners directly to the locksmiths who stand behind the quality of our trade-grade range, designed here in Australia for Australian homes.
