PRODUCT SPOTLIGHT

ARE YOU GETTING THE MOST FROM YOUR FUTURA?

If you're not subscribed to updates for your machines, you could be missing out. In the last year, Silca have released hundreds of new cards, key systems and code series for the Futura, Futura Pro, Futura Auto and Futura Edge.

Updating is simple. Just ask your Account Manager to organise a Subscription, then you can download all the updates to a USB stick for offline updating (often useful when your machine is in a van), or you can do it online directly from the machine if it's connected.

TOKOZ HASP & STAPLES

WRAP UP

TAFE TRAINING

Students and teachers from Queensland TAFE attended the Brisbane LSC branch in June for the purpose of an automotive training day. The training consisted of a mix of theory and hands on where students experienced researching information databases such as CarLab and MYKEYSPRO together with hands on key programming by diagnostics and basic EEPROM. A good day was had by all.

BDS SUBARU PROXIMITY KEY

- Aftermarket key
- Transponder TMS37126
- Mode 40 Bit
- Configuration 9F
- Includes emergency blade insert

TECHED

WRAP UP TECHED AEE102

After a long break due to Covid-19 restrictions, LSC were happy to be able to offer face-to-face training again through our industry leading TechED program at our dedicated Training Facility in Melbourne last month.

Customers from around the country attended and enjoyed the AEE102 course, which is an intensive and highly detailed two day program covering soldering techniques, Eeprom programming, troubleshooting, and all the ins and outs required to make keys to complex vehicles which are not easily done via a diagnostic machine.

More courses are currently scheduled, and the team are itching to ramp up in line with demand, so please feel free to let us know if you're interested, or by registering your interest at the TechED page on the new LSC Website.

NOW ONLINE AEE101 INTRO TO BASIC EEPROM

✓ Convenient Self-paced learning

✓ Savings by way of not having to attend a specific venue or take time away from business

✓ High quality learning material compiled by recognised industry experts in this field

✓ A rich mix of theory, narrated demonstration videos and animations

✓ In built assessments to gauge learning and understanding of subject matter

✓ Hands on exercises utilising training aids

✓ Bulletin board allowing communication with other participants

✓ Suited to those wishing to refresh previously learned skills or those new to the subject

RISCO
GROUP

RisControl
Smart Touchscreen Keypad

RisControl is a responsive, high resolution 8" touchscreen keypad, offering an intuitive easy to use interface. With RisControl the user can control all alarm and cloud-based solutions from RISCO Group from one access point. With a clear overview of the system status, easy arm/disarm functionality and the option to view live video and recordings from the VUpoint Video Solution.

With a design that fits in any space, the keypad is suitable for various residential and commercial applications and offers a perfect opportunity to upgrade and delight your customers.

Keypad functions are presented in an intuitive way allowing users to learn the security system in no time.

RisControl communicates via the System Bus (RS-485) with the control panel. The communication with RISCO Cloud is via WiFi.

The Touchscreen keypad is built for quick and easy installation with a mounting bracket and a detachable connector for easy wiring.

The RisControl keypad is compatible with LightSYS as of version 6.05.

Features

- Convenient access of keypad functions for a smart user experience
- Customisable user interface, easy to use
- View live video and recordings by VUpoint Video Solution
- Detachable connector for easy wiring
- Automated Software updates via Wi-Fi
- Grade 3 certified
- Part Code: RP432KPT000A

RISCO Certification Training [VIC]

Recently LSC Security Supplies hosted Factory Certification Training on the Agility4 Alarm panel. Some eager learners attended LSC Security Supplies Training facility at the Brooklyn Distribution Centre where they got hands on with the Agility4 panel.

The comprehensive training was run by RISCO's Peter O'Callaghan and covered all the top tips for programming the Agility4 panel including the visual verification with the integrated cameras. Peter showed the class the ease of how alarm sensors are programmed into the panel, and how setup was a breeze.

To many of the attendees the highlight was seeing how well the VUpoint cameras integrated seamlessly in the iRISCO Smartphone App which gives the end user great control over their alarm and CCTV all in one place.

Peter also demonstrated the RISCO Cloud Installer website, and how all sites can be supervised in one easy to use place.

During the lunch break the attendees were also treated to a sneak peek at the new RISCO RisControl Smart touchscreen Keypad – A sleek high-resolution keypad that works with RISCO LightSYS panels and can even view live video and recordings from the VUpoint Video Solution.

After a jampacked day of learning our attendees left with all the knowledge they needed ready for installation.

dormakaba

DOOR CLOSERS

Whether for private homes or contemporary office buildings, door closer systems from dormakaba are intelligent, integrated access solutions that combine consistency, convenience, design and premium quality.

SILCA UNOCODE F-SERIES ENGRAVING

Customers have been asking for an integrated engraving solution to enhance the visual appeal of their finished product, improve efficiency, reduce errors, and/or to reduce noise in the workshop.

The Silca Unocode F800 or F900 delivers:

- High quality rotary tip (diamond or HSS) engraving
- Engrave on the top or bottom of the key
- Feed keys automatically to the engraving station

- Engrave brass, steel or nickel silver keys
- Integrate with ProMaster8 for common engraving data
- Customise line-by-line to highlight important customer information

NEW

SILCA NEW KEYS

The popularity of ABUS bike locks continues to grow and grow. Many more independent and chain stores are now stocking Europe's number one mobile security brand, and we're seeing more requests from our customers for replacement keys. Most locksmiths are familiar with the ABUS 'Plus' system, also known in our industry under the product line name it first featured in which is 'Granit'. Silca keys AB38P and AB60P cover these.

Below are the keys used on the most popular bike locks entering the market. With the rise in popularity of E-bikes, we're also seeing a request for AB114P which is used to secure the battery pack on many premium models.
