# JESSE SHEPHERD

**VALLEY LOCKSMITHS (SA)**

**Please provide a short personal biography about yourself.**

I grew up in country SA in small town of around 1,500 people. When Year 10 work experience came around I had no idea what I was going to do for the week so I picked up a Yellow Pages and gave it the old "flick through". Locksmithing caught my eye and I called one of the reputable locksmithing businesses in Adelaide to give it a go. I had a great week. I returned to locksmithing for work experience for Years 11 & 12 and managed to land an apprenticeship in the Barossa a few years after finishing school and I am still working with the same company and thoroughly enjoy the career!

**What are some of the skills and abilities necessary for someone to succeed as a locksmith?**

Locksmithing is a great career choice for people who want to work with their hands but also like using their brains. It's a great mix of skills involving logic and creativity. If you like problem solving and puzzles you'll love locksmithing. You'll also need good communication skills to interact with customers good and bad and understand the situations that they may be going through. Overall a great career for practical thinkers to help people and solve problems.

**What key issues do you think will affect the locksmith industry in the coming decade and how do you think these should be approached?**

Locksmith scammers are a growing issue for genuine trade certified Locksmiths as they rip people off and often drill and damage locks and safes unnecessarily, tarnishing the name of professional career Locksmiths. I think the best way to approach this issue is for the MLAA to boost public awareness through PR campaigns so customers know the difference between a professionally trained Locksmith who is a member of the MLAA and an untrained cheap Locksmith who offers $45 lockouts and then charges $700 on completion.

**Tell us why you should be Australia's best young locksmith.**

I would be honoured to even be considered for this year's title as there are many Locksmiths out there that could easily give me a run for my money. I have gained a significant amount of knowledge and skills through my time as a locksmith and was very fortunate to win apprentice of the year in 2019. Even if I don't with this year's competition, I am excited to see what the future has in store for me. I will continue to enjoy locksmithing as I have a genuine passion for the trade.

# CLONE JUST
# ABOUT ANYTHING,
# JUST ABOUT ANYWHERE!

**With cloning remaining the easiest and fastest way to produce additional transponder keys for automotive applications, Silca remain committed to this business and customers who value reliability, ease of use, and a quality outcome for the vehicle owner.** Clone on the benchtop in a shop, out on the road in a van, or just about anywhere with the new RW5 and Smart Aerial Plus devices. Cloud connected cloning calculation power makes the process faster, updates fewer and easier, and prolongs the life of the technology as updates are done in the cloud. Easy to use guided processes take you through step by step, and the process is easier and faster than ever, without sacrificing Silca's industry leading reliability.

## RW5

**The ideal solution for shop based operation, join it to your wifi and set and forget.**

- Bluetooth and wi-fi enabled
- Configurable via Silca's MyKeysPro App
- On board screen guides the user through each step
- Compatible with older and newer Silca transponders
- Cloud connected for speed, power, and long-term reliability
- Identify, clone and/or pre-code vehicle transponders
- Free to register and use, no tokens or subscription cost
  for cloud access

## SMART AERIAL PLUS

**The ideal solution for mobile operations, designed to work with Smart Pro, run it from your phone.**

- Bluetooth enabled
- Portable, rechargeable
- Snoop functionality included in the device
- Driven from your Smartphone via Silca's MyKeysPro App
- Compatible with older and newer Silca transponders
- Cloud connected for speed, power, and long-term reliability
- Identify, clone and/or pre-code vehicle transponders
- Free to register and use, no tokens or subscription cost
  for cloud access

# SILCA RW5, SMART AERIAL PLUS, AND GTI-PRO

**TRUSTED BRAND**

## NEW

*adds support for additional vehicles, reducing your stock and streamlining your cloning bench.*

## GTI-PRO INCLUDES:

**Everything from GTI Glass and Wedge chips:**

- Texas fixed & crypto, Philips crypto
- T3, T4, T7, T8, T13, T14, T16, T17, T18, T19, T21, T22, T31 and T32
- New: T49C (Honda G)
- New: T80+ (DST80 Ford/Toyota/Hyundai/Kia)
- New: T128C (Toyota H)
- New: 8C (Temic Crypto)
- New: Temic T5 (11, 12, 13, 33)

- Pricing is unchanged despite the addition of new functionality, and price breaks are available.

Designed to work with the RW5 and Smart Aerial Plus, the GTI-PRO is also compatible with the RW4Plus machine*

## NEW FROM SILCA: GTI-PRO

**Based on the industry leading GTI and GTI-Wedge chips, Silca are pleased to announce the launch of GTI-PRO.**

The GTI family of chips is well used and loved by customers for reliability and quality – no weak signal, no corruption, no messing around second guessing if the chip is causing issues or not doing what it's supposed to.

The GTI-PRO has arrived, and adds support for additional vehicles, reducing your stock and streamlining your cloning bench.

\* Software update required. # 8C cloning is not available on RW4Plus.

# SECURITY 2022 EVENT WRAP UP

LSC would like to sincerely thank our visitors at The Security Exhibition & Conference.
Our team had a sensational time reconnecting with old acquaintances and meeting new ones.

Since the pandemic halted events two years ago, the events industry has slowly been recovering. It was
a delight to see so many amazing stands and so many patrons attend what really is 'Australia's biggest security event.'

Our stand looked fantastic and did justice to the revolutionary products that we showcased. This year we featured products from Milesight, SALTO, Dahua, HID & RISCO. We want to extend our congratulations to this year's lucky giveaway winners. Innotec Security (VIC) took home the bottle of 2012 Penfolds Grange, RRP $950 and Thompson Bros (QLD) took home the Street Fighter Gaming Arcade, RRP $799.

We have an outstanding team of security experts spanning the entirety of Australia and New Zealand, so if you have any questions regarding something you saw on our stand, we would love to hear from you.

| | | | | |
|---|---|---|---|---|
| **alhua** TECHNOLOGY | **Milesight** | **HID** | **SALTO** inspired**access** | **RISCO** |
| Dahua Technology is a world-leading video-centric smart IoT solution and service provider. Based on technological innovations, Dahua Technology offers end-to-end security solutions, systems, and services to create values for city operations, corporate management, and consumers. | Milesight specialise in the design, development and manufacturing of best-in-class AIoT video surveillance solutions including Network Cameras, NVRs, Software and App with superior image quality, exceptional flexibility and reliability. | HID powers the trusted identities of the world's people, places and things. With HID's trusted identity solutions, people get effortless and worry-free identity verification experiences - with only a tap, twist, tag, push, swipe, or simply through the proximity of their chosen device. | SALTO Systems revolutionised access control with the introduction of the SALTO Virtual Network SVN data-on-card technology and the advanced battery-operated wireless electronic smart door lock range in 2001. | Developing cloud-based security, video monitoring and verification, and connected home solutions, RISCO delivers innovative, top quality and reliable security products for every type of security and safety installation for the residential and commercial markets. |
