PRODUCT SPOTLIGHT

ARE YOU GETTING THE MOST FROM YOUR FUTURA?

If you're not subscribed to updates for your machines, you could be missing out. In the last year, Silca have released hundreds of new cards, key systems and code series for the Futura, Futura Pro, Futura Auto and Futura Edge.

Updating is simple. Just ask your Account Manager to organise a Subscription, then you can download all the updates to a USB stick for offline updating (often useful when your machine is in a van), or you can do it online directly from the machine if it's connected.

KEY-BAK SUPER 48 SERIES

When you just can't lose your keys. The Key-Bak Super 48 series is the self-retracting key reel for industrial use that many have tried to copy, but just can't match the original and best.

Described as 'the key retractor you should use when losing your keys might mean losing your job', the Key-Bak Super 48 comes with a Kevlar® cable, high impact polycarbonate case and a range of belt and attachment options.

Made in USA and backed by a lifetime service policy

*Proven to last over 1
million cycles!*

KBS48PLUS

New Universal Remotes from Silca Now Available

The new Silca universal automotive remotes are ideal for both all keys lost and spare key situations. This new universal remote provides the locksmith with a solution that is low cost and high profit margin without sacrificing quality and reliability.

At this time, the range is available in 4 different aesthetically pleasing designs those being BMW, Hyundai / Kia, PSA & Volkswagen lookalike. The remotes can be supplied without transponder which allows for cloning and or diagnostic programming with a transponder of choice. Additionally, remotes may be purchased with an integrated HITAG transponder for situations where transponder and remote program at same time.

The remotes are preset by way of a remote programming cable connected to an android device. The MySilca SRP android app driving the preset process is a free download from the Google Play Store.

Why Silca Universal SRP remotes?

- Extensive vehicle coverage in local market
- Quality remote fob
- Quality flip blade
- Superior smart phone app with brand and model year association
- Product warranty
- Tested locally
- Stock on hand

The MySilca SRP free download from the Google Play Store!

with Unocode F800 or F900

SILCA UNOCODE F-SERIES ENGRAVING

Customers have been asking for an integrated engraving solution to enhance the visual appeal of their finished product, improve efficiency, reduce errors, and/or to reduce noise in the workshop.

The Silca Unocode F800 or F900 delivers:

- High quality rotary tip (diamond or HSS) engraving
- Engrave on the top or bottom of the key
- Feed keys automatically to the engraving station
- Engrave brass, steel or nickel silver keys
- Integrate with ProMaster8 for common engraving data
- Customise line-by-line to highlight important customer information

Ask your Account Manager about streamlining your workshop now.

NEW

SILCA KEYS

The popularity of ABUS bike locks continues to grow and grow. Many more independent and chain stores are now stocking Europe's number one mobile security brand, and we're seeing more requests from our customers for replacement keys. Most locksmiths are familiar with the ABUS 'Plus' system, also known in our industry under the product line name it first featured in which is 'Granit'. Silca keys AB38P and AB60P cover these.

Below are the keys used on the most popular bike locks entering the market. With the rise in popularity of E-bikes, we're also seeing a request for AB114P which is used to secure the battery pack on many premium models.

HAPPY CUSTOMERS

JT CARTER PLUMBERS

JT Carter Plumbers have been providing key cutting and locksmithing services to the good people of Te Aroha for well over 2 decades now and recently approached LSC for some ideas with a view to spruce up their showroom.

We were only too happy to assist, we are sure that you will agree that the final result looks absolutely fantastic!

Thanks again Pete, Aran, Sheryl and Steve.
