The ABUS Rock Series just got better!

The new ABUS Rock Series has had a serious upgrade.

In doing this ABUS can achieve a higher security rating to previous ABUS Rock models.

Also ABUS have made the new models accept various cylinders, the 570 Oval, the ABUS fig 8 core & a half Euro cylinder (10/30), making this a truly world wide product.

Higher security & multiple cylinder options making it a class about the competition.

2025 | 3rd Finalist

Anthony Atkinson

Rodd Locksmiths | Ballarat, VIC

Please provide a short personal biography about yourself?

My names Anthony I'm 26 years old. I started my school-based apprenticeship when I was 15 after completing work experience through Rodd Locksmiths in Ballarat.

I first became interested in giving locksmithing a go after meeting a locksmith who today is one of my best mates and I've worked alongside him pretty much every day for the last 10 years.

I met him at an archery shoot in Ballarat when him and his son came out for a day to have a crack at archery. At that time, I was looking for somewhere to do work experience and he said to drop in and speak to the Rodd boys and that's pretty much how my locksmithing career started, and I still work for the same company today!

What are some of the skills and abilities necessary for someone to succeed as a locksmith?

A keen eye for detail is something I've learned to be very valuable in locksmithing. Whether it would be impressioning keys or trouble shooting locks you need to know how things work and what to look for.

Patience is also a key to being a good locksmith. It's always too easy to grab a drill or give up rather than persisting and being rewarded with a successful job knowing that you used your skills and did it right.

Having the ability to adapt to all types of locksmithing from automotive to commercial, safes and domestic to be a good locksmith I think you need to have an all-round knowledge to get you through any situation

What key issues do you think will affect the locksmith industry in the coming decade and how do you think these should be approached?

The more technologically advancements we have is going to make it harder for locksmiths to trouble while and maintain knowledge on those types of locks such as biometric security. This will require not just general locksmithing knowledge but technical skill as well

I think stricter licensing and certification needs to be looked at more as there are way too many unqualified people posing as locksmiths. This will protect clients from being scammed and stop giving qualified locksmiths a bad name.

The lack of people looking at locksmithing as a potential career choice is definitely going to affect the industry. New locksmiths will need to be trained in electronics and software as well as mechanical skills.

Tell us why you should be Australia's best young locksmith?

I've worked hard for the last 10 years and learned a great deal about the industry not only in work hours but have always studied and practiced my skills in my own time to better myself as a locksmith

I have knowledge in all areas of locksmiths and have been given the opportunity to practise skills through the work that's been given to me. I'm always adapting and learning new skills that will help me in the future.

I'm always willing to give anything a go and learn new skills of people around me.

TRANSPONDERS & DIAGNOSTIC
KEY PROGRAMMING

ADP202 | (7hrs) Lunch inc

VIC Thursday, 13 November
VIC Friday 14, November

VIC Distribution & Training Centre
VIC Distribution & Training Centre

Prerequisites

- There are no mandatory requirements
- Prior understanding of transponder identifications or key cloning may be helpful.
- Prior experience of diagnostic key programming may be helpful

This course has been designed to allow for maximum participation in theory and practical exercises. You will work with custom made, fully operable diagnostic simulators which allow the users to visually see each of the different components which make up a security system in the example vehicles. Each exercise will cover a variety of important processes and solutions ranging from transponder selection and manipulation to diagnostic communication for key programming.

THE LOCK FOCUS RV RANGE HAS EXPANDED

NEW

Lock Focus has expanded the RV single key range to include round end compression latches.

These latches are used on RV Ute canopies, tool-boxes, camper trailers and tradie trailers. They are available in black powder coated and chrome plated finishes and operate on the standard LF exchange barrel key profiles (CX7, LF31R, LF37 & LF24). You can purchase these in retail display pack or bulk quantities at more economical pricing. All product is supplied less barrel, with barrels available as a special order.

The Smart Lock Revolution is *Here*

You might have suspected it, but the numbers confirm it — Australia's Smart Lock industry is booming. By 2029, economists predict that 15.2% of Australian households — around 1.1 million homes — will have a smart lock installed. For locksmiths, that's not just growth; it's opportunity. **Those who embrace this fast-evolving market today will be best positioned to future-proof their business for tomorrow.**

In 2025 the smart lock industry is set to hit a whopping **\$236.5M**, growing at 7.71% YoY!

By 2029: **15.2%** of Aussie homes will have a smart access solution installed.

MLA EXPO 2025 EUROPE'S LARGEST EVENT

The 'other' MLA (The Master Locksmiths Association of the UK) held their conference and trade exhibition this month, and LSC was there to check it out, with two of our team visiting suppliers and looking at new trends and developments.

Our own MLAA also took a delegation of locksmiths on a study tour, which included a stop at the MLA's exhibition – which was held over three days in Telford, which is near Birmingham. Our own industry was well represented with customers from Australia and New Zealand in attendance.

The MLA's expo is Europe's largest, and with nearly 100 exhibitors and the event running for three days, there was plenty to see. Training, demonstrations, presentations and a gala dinner were all on offer, and the training program quickly sold out due to the strong demand.

With the UK being the most relevant market (in terms of trade skill and product similarity) to ours, it's a great event.

JAAOTY FACTORY VISITS

The 2024 winner of the John Andrews Apprentice of the Year Award visits Silca and ABUS.

LSC were proud to host Toby Simpson from Salisbury Locksmiths in South Australia on tours of Silca's factory in Vittorio Veneto, Italy and ABUS' headquarters in Wetter, Germany last month. Travelling to Italy for the first time, Toby and mentor Alan King were joined by Jeremy Pickering and Tom Stokes to check out the most high-tech and sophisticated production site for keys in the world, where over 60,000 different types of keys, at a rate of about one million per day are made.

From keys and machines (and pizza) to padlocks and cylinders we then visited the world class ABUS HQ and campus in "Wetter" Germany. Sadly, it is usually wet there, and this year didn't disappoint. But the ABUS technology, passion for quality and the small details was on full display. The team visited the ABUS World, and saw the famous ABUS museum, alongside production, logistics and the pinning and service centre.

Congratulations Toby, we hoped you enjoyed your trip.

Congratulations to our F1 Competition winner!

LOCK IN POLE POSITION WITH DORMAKABA

"I was thrilled to win an incredible trip to Singapore to watch the Formula 1! From the pit stop lunch to the racing, and the energy of Singapore was just amazing. A huge thank you to dormakaba and LSC

for putting together such an awesome prize through F1 Experiences.

What a way to celebrate a 10 year wedding anniversary on the same weekend too. It truly was an unforgettable experience!"

Adam Svetey
Blue Coast Locksmiths (NSW)

Congratulations Ben Greagan from Safeguard Locksmiths (VIC)

Ben's guess of 982 was just one off the correct number of 983 keys! Our 'Guess the green Keys in the Bowl' competition was held on our trade stand at the MLAA Annual Conference, and Ben won a bottle of Irish whiskey for your near-perfect guess!
