

Key Security

With Kidde, you can lose the lockouts, ditch key duplication and distribution, and rid yourself of re keying. Our KeySafe™ line of door key lock boxes and cabinets stores your physical keys in one secure, organised, convenient place. KeySafe pushbutton locking system allow for easy operation.

Key Lock Boxes

Key lock boxes and safes are a secure way to grant access to your home for authorised individuals without the need to make and distribute duplicate keys. Ideal for;

- After school access for children
- Emergency access to elderly households
- Holiday Rentals
- Maintenance workers or others who need temporary access.

Key safe lock box installation options include permanent and temporary locations, such as on handles or over the door. Keep your keys secure while giving others temporary access with Kidde key lock boxes.

Model #	Product Description
001844	Locking Stor-A-Key

Locking Key Cabinets

Keep your keys safely stored and organised with a locking key cabinet. Made with heavy-duty steel and available with a standard cam lock or resettable push button lock, these key cabinets offer the depth to hold larger keys.

Keys can be hung directly on the hooks and numbered key tags and a lock location chart make it easy to keep your keys organised.

Use a smaller key cabinet for home or business keys that need to be readily available, or choose a key control cabinet with more capacity for larger organisations. Avoid the inconvenience of re-keying locks due to lost keys with a secure locking key cabinet.

Model #	Key Capacity	Lock Type
001795	30	Pushbutton
001796	60	Pushbutton
001797	120	Pushbutton
001801	30	Key
001802	60	Key
001803	120	Key

AccessPoint TouchPoint Lock

TouchPoint is designed to replace a standard cam lock in a variety of storage cabinets or enclosures.

It consists of a solid die cast body with a ten digit changeable combination and a clutch mechanism to turn the cam.

The TouchPoint lock can be mounted on top of the door surface or flush mounted into the door.

Model #	Colour
