Ultra-Secua Smart Lock with Dual Unlock Feature

With BLE pairing, your screen door lock can control two locks at once — unlocking convenience and security in a single touch.

DUAL UNLOCK FEATURE

Australian Registered Design No. 202014467

mcgrathlocks.com.au

Designed to make
access easier.

The Ultra-Secua with Dual Unlock by McGrath Smart Locks is a digital lock designed specifically for screen door applications. A great addition to the home, office or business, this 4 in 1 digital lock provides a versatile and convenient method of entry that allows you to easily manage who has access to your property. With the Ultra-Secua Dual Unlock upgrade, you can pair your screen door lock seamlessly with another lock via BLE for dual access with just one touch. A true game changer in convenience and security.

Utilising the powerful McGrath Locks APP, lock and user settings are easily configured and managed. Access can be provided to family and visitors alike through pin code, RFID credential, eKeys managed via BLE and mechanical key override. The Ultra-Secua with Dual Unlock can be connected to a gateway giving you the ability to unlock your door from anywhere in the world using the McGrath Locks APP.

The Ultra-Secua with Dual Unlock has an IP66 rating making it ideal for external applications where a robust solution is required. The lock is supplied with a lock body, key cylinder and batteries to make your installation a breeze.
